

Product Information 2021

Your Complete Reference

USANA has a lot to offer. Seriously, just check out the Table of Contents on the next page. It may seem overwhelming at first, but there's a reason we offer a wide range of diverse products: we consider it our job to provide you with the best nutritional, food, and skincare options to support your well-being, no matter your specific health goals, wants, and needs.

But we didn't just come up with these products on a whim. Our in-house scientists created these precise formulas purposefully to support your health from the cell up. Luckily, you don't have to be a scientist to understand how our science-based products work. That's what this booklet is for. It's an in-depth explanation of our products that anyone—including the non-scientists among us—can understand.

There are going to be plenty of people who want serious details about USANA products. (Maybe you're one of them.) Sometimes, you don't just want to know what part of the body a supplement supports—

you want to know how. You want to know how the individual ingredients work, and you want to know why USANA's formula is better than all the rest.

So when you have a question about a product, turn to this booklet. And when you talk to someone who is intrigued by high-quality supplements but wants a more in-depth explanation, this booklet has the answer.

If we could give you a short list of frequently asked questions about supplementation and USANA's award-winning products, we would. But it's not that simple. Everyone has different health concerns, and everyone has different questions that need to be answered. That's why this entire booklet is dedicated to being your definitive source of USANA product information—it offers answers to a thousand possible questions. And the more time you spend flipping through it, the closer you'll be to becoming a USANA product expert.

So go ahead. Let's get started.

CONTENTS

8 ESSENTIAL NUTRITION

- 9 CellSentials Core Minerals
- 11 CellSentials Vita Antioxidant
- 13 HealthPak

14 THE BEST NUTRITION FOR YOUR FAMILY

- 15 USANA CellSentials Prenatal Vita Antioxidant
- 16 USANA CellSentials Prenatal Core Minerals
- 17 Body Rox
- 18 Usanimals
- 19 BiOmega Jr.

20 OPTIMIZERS

- 21 Proflavanol C¹⁰⁰/Proflavanol C²⁰⁰
- 23 CoQuinone 30/CoQuinone 100
- 24 BiOmega
- 25 Booster C 600
- 26 USANA Vitamin D
- 27 Proglucamune
- 28 USANA CopaPrime+
- 29 Visionex DS
- 30 MagneCal D
- 31 MagneCal D Chewable
- 32 Procosa
- 33 Vitamin K2
- 34 USANA EstroPro
- 35 Palmetto Plus

36 MOOD & RELAXATION

- 37 Stress Relief
- 38 Calm Response
- 39 Mineral Calm
- 40 Pure Rest

41 DIGESTION/DETOX

- 42 USANA Digestive Enzyme
- 43 USANA Probiotic
- 44 Hepasil DTX

45 DIET/ENERGY

- 46 USANA MySmart Protein Shake Bases
- 47 USANA MySmart Protein Fiberly Plus
- 48 USANA MySmart Protein Plus Booster

- 49 Nutrimeal
- 49 Dutch Chocolate
- 49 French Vanilla
- 49 Wild Strawberry
- 49 Nutrimeal Free
- 51 Rev3 Energy Drink
- 52 Rev3 Energy Surge Pack
- 53 USANA WholeBio Microbiome Nutrition Bar

54 CELAVIVE

- 55 Conditioning Makeup Remover
- 55 Creamy Foam Cleanser
- 55 Gentle Milk Cleanser
- 55 Perfecting Toner
- 56 Hydrating Eye Essence
- 56 Vitalizing Serum
- 56 Exfoliating Scrub + Mask
- 56 Hydrating + Lifting Sheet Mask
- 57 Protective Day Lotion
- 57 Protective Day Cream
- 57 Replenishing Night Gel
- 57 Replenishing Night Cream
- 58 Celavive Brightening Series
 - 59 Dark Spot Corrector
 - 59 Light Complexion Serum
 - 59 Vivid White Sheet Mask
 - 59 Luminous Moisture Cream

60 SENSÉ

- 60 Sensé Bodycare
- 60 Energizing Shower Gel
- 60 Revitalizing Shampoo
- 60 Nourishing Conditioner
- 61 Firming Body Nourisher
- 61 Intensive Hand Therapy

62 USANA ORAL CARE

- 62 USANA Whitening Toothpaste Featuring ADP-1
- 62 USANA Oral Probiotic

USANA's state-of-the-art manufacturing facility and corporate headquarters in Salt Lake City, Utah.

USANA is a
Trusted Sponsorship
Partner of
The Dr. Oz Show.

The USANA Difference

You are unique, and your health regimen should reflect that. You deserve personalized nutrition that addresses your overall macronutrient and micronutrient needs. And if you want to think, act, and perform at your best, you need the best products out there.

"USANA's potency guarantee ensures that what is on the label is what is in the bottle. Our strict manufacturing processes make certain that every USANA nutritional supplement is of the absolute highest quality and contains the proper, labeled levels of potency."
—Dr. Myron Wentz

USANA's vision is to create the healthiest family on earth. Dr. Myron Wentz founded USANA with a commitment to precise formulations, pure ingredients, and continued research. More than 25 years later, that commitment continues to motivate our 60+ scientists around the world.

Starting with the raw materials that enter our state-of-the-art manufacturing facilities, every supplement is tested to ensure it meets FDA Good Manufacturing Practice requirements for dietary supplements and United States Pharmacopeia (USP) standards for potency, uniformity, and disintegration. Dr. Wentz puts his stamp of approval on many products with USANA's potency guarantee.*

Now, if you're questioning whether or not you should choose USANA—especially when there are plenty of cheap supplements lining the shelves of any given discount store, ask yourself: Are you willing to invest to ensure that the nutritional products you and your family take are safe and effective?

Supporting your health is an important decision. USANA is with you every step of the way.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Why Take Supplements?

Your body cannot thrive, or even survive, without optimal amounts of vitamins and minerals. Both are essential for helping your body function properly and supporting overall well-being. Additionally, phytonutrients and other antioxidants can protect your cells, DNA, and genes from oxidative damage.*

Diet and nutrition are important factors in the maintenance of good health throughout life— yet calorie-rich, nutrient-poor diets are increasingly common. That's why it's so important to eat a healthy diet, get plenty of exercise, and take quality nutritional supplements.

The Science of InCelligence

USANA is a leader in the supplement industry because we don't shy away from innovation. From the groundbreaking Essentials, which set the standard for all others to follow, to developing patented ingredients and technologies, USANA has a history of excellence. After many years of research and development, USANA created the next evolution in nutritional science: USANA InCelligence Technology.

The cutting-edge InCelligence Technology uses the innate intelligence of your cells to support vibrant health and optimize your health span with normal aging. Like a key opens a lock, InCelligence unlocks cell-communication codes with proprietary nutrient blends that activate your cells' natural ability to protect and renew themselves. Proactively initiating these processes via cell-signaling pathways promotes cellular resilience and longevity, so your body is better able to respond to your unique health needs.

Your cells already know how to take care of your health. InCelligence gives them the right nutrients to help them along the way.

Are you ready to reach your potential?

Essential Nutrition

Helping you build a strong foundation for exceptional health, CellSentials and HealthPak provide a comprehensive spectrum of the necessary vitamins and minerals adults need every day for optimal health and energy levels.

USANA CellSentials

Core Minerals

Top-rated, broad-spectrum daily mineral supplement

Core Minerals is part of the USANA CellSentials cellular nutrition system with USANA InCelligence Technology. The CellSentials are designed to provide an essential foundation of optimal nourishment plus powerful antioxidant protection and mitochondrial renewal support for the health and longevity of your cells. Core Minerals supplies a balanced range of highly absorbable essential minerals and trace minerals. It also includes added vitamin C, as well as N-acetyl L-cysteine. Core Minerals should be consumed with Vita Antioxidant for best results, as it complements the vitamins and supports the benefits activated by the InCelligence Complex.*

THE BENEFITS OF CORE MINERALS

Minerals are essential elements for optimal health and well-being. Without them, our bodies would be unable to function. They play a role in all physiological processes and help balance and regulate our body chemistry. Core Minerals delivers a dozen minerals plus ultratrace minerals to help fill gaps in the diet and provide whole-body nutritional support. Core Minerals also supports the protection and renewal benefits activated by the InCelligence Complex in Vita Antioxidant, promoting cellular resilience and longevity so your body can meet your unique health needs.*

THE SCIENCE OF CORE MINERALS

Core Minerals is an excellent source of magnesium. Magnesium is a cofactor in more than 300 enzyme systems that control various natural reactions in the body; including metabolizing glucose and macronutrients; supporting the production of cellular energy; and producing protein, DNA, RNA, and glutathione. It is important for proper calcium utilization, which contributes to the structural development of bones. It is also important for maintaining healthy nerve, muscle, and cardiovascular function.*

The most common mineral in the body, calcium is essential for healthy bones and teeth as well as healthy muscle and nerve function.*

The magnesium and calcium blends in Core Minerals are both composed partly from the ascorbate forms of the nutrients. Ascorbate is a source of another essential micronutrient: vitamin C.

Core Minerals contains high-potency iodine. Iodine is a crucial component in the body's normal production of thyroid hormones, which regulate metabolism, growth, reproduction, and the synthesis of protein. Supplemental iodine is especially important for people on a vegetarian diet, those who avoid seafood, or those who restrict their iodized salt intake.*

Core Minerals is high in zinc. A component of hundreds of enzymes, zinc is involved in normal carbohydrate, fat, and protein metabolism, as well as supporting healthy DNA and RNA replication. It is important for supporting our body's natural healing process for minor cuts. It aids healthy bone structure development and promotes healthy immune function and healthy vision. It supports connective tissue formation and helps to maintain healthy skin. Zinc also acts as an antioxidant.*

Core Minerals contains high-potency selenium. Selenium aids the body's natural ability to produce glutathione, an endogenous antioxidant. It plays an important role in thyroid hormone metabolism, and many studies have shown that selenium is important for maintaining prostate health. Some scientific evidence suggests that consumption of selenium may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.*

Core Minerals is rich in copper. Copper is a critical component of the enzyme superoxide dismutase (SOD)—an endogenous antioxidant—and it helps form hemoglobin. Copper is also essential for collagen synthesis, and, thus, plays a role in connective tissue formation.*

Available for MyHealthPak

ITEM #102

Directions: Take two (2) tablets twice daily, preferably with food.

Supplement Facts		
Serving Size: 2 Tablets Servings Per Container: 56		
Amount Per Serving		%DV
Vitamin C (as Magnesium Ascorbate and Calcium Ascorbate)	300 mg	333%
Calcium (as Calcium Citrate and Calcium Ascorbate)	113 mg	9%
Iodine (as Potassium Iodide)	250 µg	167%
Magnesium (as Magnesium Citrate and Magnesium Ascorbate)	113 mg	27%
Zinc (as Zinc Citrate)	10 mg	91%
Selenium (as L-selenomethionine and Sodium Selenite)	100 µg	166%
Copper (as Copper Gluconate)	1 mg	111%
Manganese (as Manganese Gluconate)	1 mg	43%
Chromium (as Chromium Polynicotinate)	150 µg	428%
Molybdenum (as Molybdenum Citrate)	25 µg	56%
Boron (as Boron Citrate)	1.5 mg	1
Silicon (as Calcium Silicate)	2 mg	1
Vanadium (as Vanadium Citrate)	20 µg	1
Ultra Trace Minerals	1.5 mg	1
N-Acetyl L-Cysteine	80 mg	1
†Daily Value (DV) not established.		

Other Ingredients: Microcrystalline Cellulose, Modified Cellulose, Croscarmellose Sodium, Ascorbyl Palmitate, Organic Maltodextrin, Pregelatinized Starch, Silicon Dioxide, Vanilla Extract, Organic Sunflower Lecithin, Organic Palm Olein, Organic Guar Gum.

Manufactured by USANA Health Sciences, Inc., 3838 W. Parkway Blvd., Salt Lake City, UT 84120 USA.

Laboratory tested, quality guaranteed. Meets USP specification for uniformity, potency, and disintegration, where applicable.

Keep out of reach of children. Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition.

There is a safety seal under the cap. Do not use if the seal is broken or missing.

Core Minerals is a good source of manganese. Important for protein and glucose metabolism, manganese supports normal brain function. It also helps maintain healthy connective tissues, bones, arteries, and other organs. It activates numerous enzymes and can enhance the SOD enzyme system to support endogenous antioxidant activity.*

Core Minerals contains high-potency chromium. Chromium is an important component of the glucose tolerance factor (GTF), which helps maintain healthy glucose metabolism (provided it is already healthy).*

Core Minerals is an excellent source of molybdenum. An important co-factor for a number of enzymes, molybdenum is necessary for the metabolism of sulfur containing amino acids. It also helps the body metabolize proteins and helps maintain strong teeth.*

Core Minerals also contains boron, vanadium, and silicon. Boron supports the body's ability to use calcium, magnesium, and phosphorus. It also plays a role in healthy brain function. Vanadium helps support healthy serum glucose levels, provided they are already healthy. And, maintaining a good balance of silicon in the body is important for maintaining strong bones and connective tissues.*

N-acetyl L-cysteine helps to support the production of endogenous antioxidants activated by the InCelligence Complex in Vita Antioxidant.

For easy swallowing, Core Minerals has a soy-free, sunflower-based coating.

THE USANA DIFFERENCE

Formulated by a team of nutritional-science experts using readily bioavailable forms of each nutrient, Core Minerals offers excellent completeness, potency, quality, and safety. Core Minerals is a premium blend of minerals designed to not only optimally nourish your cells but also support the activity of the InCelligence Complex in Vita Antioxidant. Together as the patent-pending USANA CellSentials—the highest-rated supplements in the world—you can trust that Core Minerals and Vita Antioxidant are the best comprehensive micronutrient supplement you can choose to nourish, protect, and renew your health every day and optimize your health span with normal aging.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

USANA CellSentials

Vita Antioxidant

Top-rated, broad-spectrum daily vitamin and antioxidant supplement with the proprietary InCelligence™ Complex

Vita Antioxidant is part of the USANA CellSentials cellular nutrition system with USANA InCelligence Technology. The CellSentials are designed to provide an essential foundation of optimal nourishment plus powerful antioxidant protection and mitochondrial renewal support for the health and longevity of your cells. Vita Antioxidant supplies carefully balanced levels of high-quality vitamins and antioxidants plus the proprietary InCelligence Complex with cell-signaling technology. Because vitamins and other micronutrients require mineral cofactors to function properly, Vita Antioxidant should be taken with Core Minerals for best results.*

THE BENEFITS OF VITA ANTIOXIDANT

By combining optimal amounts of dozens of vitamins, phytonutrients, and enzyme cofactors into one product, Vita Antioxidant helps fill nutritional gaps to provide whole-body nutritional support. The formula contains micronutrients that support multiple metabolic functions throughout the body.* Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

With the addition of the InCelligence Complex, Vita Antioxidant goes beyond delivering optimal nourishment to also initiate your cells' innate protective and renewal processes, enhancing the formula's effectiveness for supporting vibrant health.*

THE SCIENCE OF VITA ANTIOXIDANT

The InCelligence Complex is a unique blend of ingredients that can broadly support the activation of a network of cell-signaling pathways to support optimal cellular resilience and longevity, which supports your body's ability to meet your individual health needs. While there are many health-optimizing pathways that the InCelligence Complex supports, there are two key processes it was designed to promote:

- Endogenous antioxidant protection: Our bodies are equipped with a naturally powerful defense system that can protect against damaging oxidative stress: antioxidants that are produced within our cells, such as glutathione and superoxide dismutase (SOD). The InCelligence Complex contains nutrients that proactively stimulate the production of these endogenous antioxidants in addition to providing their own antioxidant activity. When combined with the additional antioxidants in the formula, including coenzyme Q10, beta carotene, and vitamins C, and E, Vita Antioxidant with the InCelligence Complex provides significantly higher levels of protection.*
- Mitochondrial renewal through mitophagy: When mitochondria within a cell produce cellular energy (ATP), high amounts of free radicals may also be generated. While the natural antioxidants in the cell will neutralize many of the free radicals, some mitochondria will be damaged over time. Damaged mitochondria within the cell can cause it to work inefficiently. They will produce less ATP and more damaging free radicals. To maintain cellular efficiency, the cell initiates a natural response called mitophagy to degrade, remove, or recycle damaged mitochondria. However, age or other lifestyle factors may slow this process. The InCelligence Complex helps activate mitophagy to renew healthy cellular function.*

The InCelligence Complex includes quercetin, hesperidin, rutin, Meriva® Bioavailable Curcumin, alpha lipoic acid, resveratrol, EGCG from green tea, and USANA's Olivol® olive fruit extract. The cell-signaling processes it supports require a foundation of a full-spectrum of nourishing micronutrients, which are also essential to whole-body well-being.*

Vita Antioxidant contains high-potency vitamin A from a blend of retinyl acetate (for those who don't convert beta-carotene to vitamin A efficiently), mixed carotenoids, and beta-carotene, which converts to vitamin A in the body only as needed. Beta-carotene supports cellular integrity and is important for strong heart, immune, and lung health. Along with the additional carotenoids in the formula—natural mixed carotenoids, lutein, and zeaxanthin—beta-carotene also helps preserve skin and eye health by providing oxidative defense against damaging UV rays.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Vita Antioxidant is an excellent source of vitamins B6 and B12, thiamin, riboflavin, niacin, biotin, pantothenic acid, and folate. The B vitamins, which also include inositol, are essential to many aspects of our health, including the following:

- As part of a well-balanced diet that is low in saturated fat and cholesterol, folic acid, vitamin B6, and vitamin B12 may reduce the risk of vascular disease. The FDA evaluated the above claim and found that while it is known that diets low in saturated fat and cholesterol reduce the risk of heart disease and other vascular diseases, the evidence in support of the above claim is inconclusive.
- Maintaining healthy homocysteine levels, provided they are healthy to begin with, which is associated with heart health*
- Metabolizing fats, proteins, and carbohydrates, which plays a role in maintaining energy levels*
- Supporting normal formation of red blood cells, tissue, and DNA*
- Supporting healthy immune cell production*
- Healthy brain and nerve function; folate is especially important for women of childbearing age to help support healthy fetal neurocognitive development.*
- Growth of healthy skin, hair, and nails*
- Antioxidants, such as vitamin E, help defend your cells against the oxidative stress caused by sunlight, pollution, and stress, which can all prematurely age the skin.*
- Lycopene, lutein, and beta carotene play a role in supporting the skin.*
- Inositol, biotin, and pantothenic acid are fundamental to the growth of healthy skin, hair, and nails.*
- Vitamin C is essential for synthesizing collagen, proteins that provide elasticity to our connective tissues (also important for maintenance of muscle, joint, and tendon function).*

Usually grouped with the B vitamins, though not technically a vitamin, choline is an essential nutrient that supports cell structure and the transmission of nerve impulses from the brain throughout the central nervous system. It supports liver function and also helps maintain healthy homocysteine levels.*

Vita Antioxidant is rich in vitamin C. USANA uses a unique Poly C vitamin C blend, which provides higher levels of vitamin C in plasma than ascorbic acid alone. Vitamin C is essential for synthesizing collagen, proteins that provide elasticity to our connective tissues, making it helpful in maintaining healthy veins and arteries, muscles, cartilage, tendons, bones, teeth, and skin. Vitamin C supports the metabolizing of fats and proteins. It is especially important for the retina, where concentrations are significantly higher than in the blood. And it also supports healthy production of immune cells.* Additional vitamin C is also found in Core Minerals.

Vita Antioxidant contains high-potency vitamin D. Vitamin D supports calcium absorption, helping to support healthy bone density. It also supports healthy cell growth as well as muscle, cardiovascular, and immune function.*

Vita Antioxidant is a good source of vitamin E, and also contains 20 mg of mixed tocopherols in each tablet. The mixed tocopherols, though not technically vitamin E, offer similar functions. This is a comprehensive blend with broad-spectrum support that more closely reflects what would come from a healthy diet. Benefits include maintaining healthy blood flow, keeping arteries and blood vessels healthy, and supporting immune and cellular function.*

THE USANA DIFFERENCE

Formulated by a team of nutritional-science experts using readily bioavailable forms of each nutrient, Vita Antioxidant offers excellent completeness, potency, quality, and safety. Vita Antioxidant with the InCelligence Complex is uniquely formulated to go beyond providing the best possible vitamins and antioxidants to nourish your cells. It also helps to activate the natural intelligence of your cells to proactively promote cellular longevity and resilience, so your body is better able to meet your health needs. Together as the USANA CellSentials—the highest-rated supplements in the world—you can trust that Core Minerals and Vita Antioxidant are the best comprehensive micronutrient supplement you can choose to nourish, protect, and renew your health every day and optimize your health span with normal aging.*

HealthPak

A premium selection of core supplements in convenient daily packets

InCelligence
TECHNOLOGY™

Olivol®

ITEM #100

DIRECTIONS: Take one (1) packet in the morning and one (1) packet in the evening, preferably with food.

Supplement Facts		
Serving Size 1 Packet Servings Per Container 56		
Amount Per Serving		%DV
Vitamin A (as 25% (516 mcg) Retinyl Acetate and 75% (2700 mcg) as Beta Carotene, Mixed Carotenoids)	1804 µg RAE	200%
Vitamin C (as Magnesium, Calcium, Potassium, and Zinc Ascorbates)	500 mg	556%
Vitamin D3 (as Cholecalciferol)	31 µg	155%
Vitamin E (as d-alpha Tocopheryl Succinate)	60 mg	147%
Vitamin K (as K1 (Phylloquinone) 240 µg, and K2 (MK-7 (Menaquinone)) 30 µg)	270 µg	225%
Thiamine (Vitamin B1)	15 mg	1250%
Riboflavin (Vitamin B2)	15 mg	1154%
Niacin (as Niacin and Nicotinamide)	20 mg NE	125%
Vitamin B6 (as Pyridoxine HCL)	18 mg	941%
Folate (as 300 µg Folic Acid)	500 µg DFE	125%
Vitamin B12 (as Cyanocobalamin)	100 µg	416%
Biotin	150 µg	500%
Pantothenic Acid (as D-Calcium Pantothenate)	45 mg	900%
Choline (as Choline Bitartrate)	51 mg	9%
Calcium (as Calcium Citrate, Carbonate, and Ascorbate)	250 mg	18%
Iodine (as Potassium Iodide)	250 µg	167%
Magnesium (as Magnesium Citrate, Carbonate, and Ascorbate)	228 mg	57%
Zinc (as Zinc Citrate)	10 mg	91%
Selenium (as L-selenomethionine and Sodium Selenate)	100 µg	182%
Copper (as Copper Gluconate)	1 mg	117%
Manganese (as Manganese Gluconate)	1 mg	43%
Chromium (as Chromium Polynicotinate)	150 µg	429%
Molybdenum (as Molybdenum Citrate)	25 µg	50%
Mixed Tocopherols (D-gamma, D-delta, D-beta Tocopherol)	44 mg	†
Inositol	64 mg	†
N-Acetyl L-Cysteine	80 mg	†
Coenzyme Q10	6 mg	†
Lipoic	300 µg	†
Lycopene	500 µg	†
Silicon (as Calcium Silicate)	4.25 mg	†
Boron (as Boron Citrate)	1.83 mg	†
Vanadium (as Vanadium Citrate)	20 µg	†
Ultra Trace Minerals	1.5 mg	†
InCelligence™ Complex and CellSentials™ Booster		
Alpha Lipic Acid	125 mg	†
Quercetin Dihydrate	90 mg	†
Pterocarpus Marsupium Extract (Containing Pterostilbene (Pterocarpus marsupium, wood))	30 mg	†
Meningioblastoma Calcium Complex (Curcuma longa L., root)	18 mg	†
Green Tea Extract (Camellia sinensis, leaves)	35 mg	†
Olivol® (Olive Fruit Extract, Olea europaea L., fruit)	25 mg	†
Resveratrol	20 mg	†
Rutin	20 mg	†
Hesperidin (Citrus spp. L., fruit)	20 mg	†

† Daily Value (DV) not established

Other Ingredients: Microcrystalline Cellulose, Croscarmellose Sodium, Modified Starch, Silicon Dioxide, Vegetable Fatty Acid, Organic Malto-Dextrin, Acetyl Palmitate, Propylstarch, Modified Cellulose, Vanilla Extract, Organic Sunflower Lecithin, Organic Palm Olein, Organic Gum Guar.

Laboratory tested. Quality guaranteed. Meets USP specification for uniformity, potency, and disintegration, where applicable.

USANA® HealthPak makes it easy to get the micronutrients you need every day. A 28-day supply of core supplements in convenient daily packets, HealthPak delivers advanced nutrition when and where you want it. HealthPak includes the USANA CellSentials with InCelligence cell-signaling technology, plus MagneCal D and the exclusive CellSentials Booster. This combination provides advanced nourishment for your cells. Plus, the innovative formulas made with USANA InCelligence Technology unlock the innate intelligence of your cells to protect and renew good health.*

Each packet contains the following:

- CellSentials: Vita Antioxidant with InCelligence Complex (2 tablets) see page 12
- CellSentials: Core Minerals (2 tablets) see page 10
- MagneCal D (1 tablet) see page 31
- CellSentials Booster (1 tablet) a HealthPak exclusive!

THE BENEFITS OF HEALTHPAK

Busy days can cause you to eat a less-than-ideal diet or forget to take your supplements. However, one of the most important aspects of achieving vibrant optimal health is maintaining consistent, optimal levels of nutrients in your body. HealthPak makes it easy for you to get the full range of nutrients you need every day, even when you're on the go.*

THE SCIENCE OF HEALTHPAK

The CellSentials cellular nutrition system supplies optimal amounts of vitamins, minerals, phytonutrients, and more. The proprietary InCelligence Complex in Vita Antioxidant goes beyond delivering optimal nourishment to also activate cells' endogenous antioxidant protection and mitochondrial renewal support.*

The exclusive CellSentials Booster builds upon the protection and renewal activity initiated by the CellSentials. Available exclusively in HealthPak, the CellSentials Booster was formulated entirely based on USANA's InCelligence Technology. It is formulated with four powerful nutrients shown to influence a broad network of cell-signaling pathways: alpha-lipoic acid, USANA's Olivol olive fruit extract, quercetin, and Pterocarpus marsupium extract containing pterostilbene.*

This unique combination delivers enhanced support for mitochondrial renewal with nutrients that target the cell-signaling pathway that initiates mitophagy, which breaks down and removes damaged mitochondria left behind in the cell after the production of adenosine triphosphate (ATP), or cellular energy. This helps preserve cellular efficiency for optimum cellular energy production.*

The CellSentials Booster also provides more nutrients with InCelligence technology that stimulate cells' production of their own innate, endogenous antioxidants, such as glutathione and superoxide dismutase. Endogenous antioxidants are a dramatically powerful defense mechanism against oxidative damage, which can protect the health and longevity of cellular function.*

Supporting these processes, as well as additional cell-signaling networks, can help build cellular resilience to help your body meet increased needs when your lifestyle demands it. And because most of us fail to get enough magnesium, calcium, or vitamin D every day, MagneCal D provides an added boost to provide more of these crucial nutrients.*

THE USANA DIFFERENCE

With the world's highest rated supplements—CellSentials—plus MagneCal D and the exclusive CellSentials Booster, HealthPak provides the most convenient and comprehensive nutrition you need for vibrant health every day. The individually wrapped pouches make it easy to stay consistent, even on the go. And the exclusive CellSentials Booster is a powerful supplement formulated entirely with InCelligence Technology for outstanding protection to help preserve your health and optimize your health span with normal aging.*

The Best Nutrition for Your Family

Good nutrition plays a critical role in everyone's health and is especially important for children because they are constantly growing, before birth to the end of adolescence. And between the toddler meltdowns and the back-to-school-blues, the last thing a parent wants is to stress over the health of their child—but they do. As a mother or father, you're looking for nothing less than the best for your family. And that is exactly what we're offering.

Mother/Child

USANA CellSentials Prenatal Vita Antioxidant

A comprehensive vitamin supplement for pregnant women and their developing babies

InCelligence
TECHNOLOGY™

ITEM #151

USANA CellSentials Prenatal Vita Antioxidant supplies a carefully formulated range of pure, high-quality vitamins at safe levels that help support your healthy pregnancy and a healthy baby.*

THE BENEFITS OF CELLSSENTIALS PRENATAL VITA ANTIOXIDANT

When it comes to optimal health, it is often necessary to consume amounts of nutrients that are higher than the RDA (Recommended Daily Allowance), which are generally considered the minimal recommendations for avoiding deficiency. When you're pregnant, your nutritional needs are increased, but many prenatal vitamins provide only the minimal RDA amounts for pregnant women.

Prenatal Vita Antioxidant provides essential vitamins, including folic acid and vitamin A (as beta carotene), to help support the healthy growth and development of your baby—before, during, and after pregnancy. Plus, it will provide added nutrition to help you maintain your energy level, and support your immune system. Additionally, it will help your body recover after giving birth.*

Healthful diets with adequate folate may reduce a woman's risk of having a child with a brain or spinal cord defect. Because it is needed for closure of the neural tube in the very first weeks of pregnancy, any woman of childbearing years should take folic acid. When taken as directed, Prenatal Vita Antioxidant is an excellent source of 600 µg of folic acid, which is more bioavailable than the folate you'll find in food.

The B vitamins, which include thiamin, riboflavin, niacin, folic acid, vitamin B6, vitamin B12, biotin, and pantothenic acid, are important to support energy metabolism and healthy organ development. Vitamins B6 and B12 also support red blood cell formation, which is critical because a woman's blood volume increases by nearly 50 percent during pregnancy. Prenatal Vita Antioxidant provides 32 mg of B6 and 200 µg of B12 in each daily dose.

THE SCIENCE OF CELLSSENTIALS PRENATAL VITA ANTIOXIDANT

The rapidly dividing cells of the developing fetus require biotin to aid in regulating healthy cellular responses. Prenatal Vita Antioxidant is an excellent source of biotin.

Vitamin A is important during fetal development and supports the healthy formation of the circulatory system, heart, eyes, ears, and limbs. Prenatal Vita Antioxidant is a good source of provitamin A. It contains 15,000 IU of beta carotene per day, which is similar to the level contained in one carrot. The beta carotene form of vitamin A is a safe, non-retinoid form of this essential nutrient that poses no toxicity risk.*

Another important antioxidant, vitamin C is essential for helping the body make collagen, which is a building block for cartilage, tendons, bones, and skin. It also supports iron absorption.*

Aside from helping to develop strong bones and teeth by aiding calcium absorption, recent studies have shown a positive correlation between maternal vitamin D status and healthy neonatal outcomes, including healthy birth weight. Prenatal Vita Antioxidant is rich in vitamin D.* Depending on your diet and the amount of sunlight you get regularly, you may want to also add USANA's Vitamin D supplement to your nutritional regimen (see page 27).

THE USANA DIFFERENCE

As with all USANA Nutritionals, CellSentials Prenatal Vita Antioxidant is manufactured to the highest quality and safety standards. Plus, additional nutrients, such as vitamin K, choline, and USANA InCelligence Technology, make the Prenatal Vita Antioxidant a well-balanced supplement for supporting the health of your future family.*

Directions: Adults take two (2) tablets twice daily, preferably with food.

Supplement Facts			
Serving Size: 2 Tablets Servings Per Container: 56			
Amount Per Serving %	DV*	Amount Per Serving

Mother/Child

USANA CellSentials Prenatal Core Minerals

A comprehensive mineral supplement for pregnant women and their developing babies

Designed to complement Prenatal Vita Antioxidant, Prenatal Core Minerals supplies pure, high-quality minerals at safe levels to help support a healthy pregnancy for mothers and healthy growth and development for babies.*

THE BENEFITS OF PRENATAL CORE MINERALS

USANA CellSentials Prenatal Core Minerals provides essential minerals, such as iron and iodine, which you need to support the healthy growth and development of your baby—before, during, and after pregnancy. Plus, it will provide the nutrition you need to keep feeling good and to help support your body after giving birth.*

Prenatal Core Minerals is also an excellent source of magnesium, which is needed to support healthy fetal growth and support calcium absorption for strong bones and teeth.*

This supplement also contains copper, which aids in the production of red blood cells, along with supporting fetal development.*

THE SCIENCE OF PRENATAL CORE MINERALS

Because maternal blood volume increases by nearly 50 percent during pregnancy, iron supplementation beginning by the second trimester is important for supporting the production of red blood cells, which help transport oxygen and nutrients to the baby. Maternal iron is also needed during pregnancy and lactation to provide the infant with sufficient iron stores to last through the first four to six months of life, after which supplementary feeding is usually recommended. Prenatal Core Minerals is an excellent source of iron.

Calcium is important for a healthy pregnancy and maintaining the mother's bone density, which is especially important as calcium is transferred to the baby for developing bones, teeth, and muscles.*

A woman's need for iodine increases considerably during pregnancy and while nursing. It is needed for maternal thyroid hormone production, which plays a role in healthy fetal neurocognitive development. Deficiency of iodine is accepted as the most common cause of preventable brain damage in the world. Iodine deficiency during pregnancy can impact cognitive function. Prenatal Core Minerals is an excellent source of iodine.

Zinc deficiency has been linked to low birth weight and an increased risk of developing delivery complications, so maintaining adequate levels is especially important for a healthy pregnancy. Zinc also supports healthy fetal cell growth.*

THE USANA DIFFERENCE

Carefully formulated by a team of nutritional-science experts using safe levels of the purest ingredients, and made in a facility that is patterned after pharmaceutical level cGMPs, CellSentials Prenatal Core Minerals provides excellent potency and quality. It is also formulated with additional minerals, such as selenium, chromium, and manganese, which may not be found in other prenatal supplements. Make sure to complement CellSentials Prenatal Core Minerals with Active Calcium Chewable, as needed, to increase your daily calcium and magnesium intake to recommended levels (see page 32). When taken together with CellSentials Prenatal Vita Antioxidant, you will have balanced and comprehensive nutritional support for the health of your future family.*

ITEM #151

Directions: Take two (2) tablets twice daily, preferably with food.

Supplement Facts		
Serving Size: 2 Tablets		
Servings Per Container: 56

Mother/Child

Body Rox

Complete daily vitamin, mineral, and antioxidant supplement for teenagers

The Body Rox supplement is specially formulated to help fill the gap in a poor diet and help meet certain nutritional needs for growing adolescents.

THE BENEFITS OF BODY ROX

Establishing healthy dietary habits that will last for a lifetime and getting optimal nutrition are especially important during adolescence and teenage years of growth, development, and physical maturation. And while there is no substitute for a balanced diet, Body Rox is a convenient way to ensure that your teen is getting the nutrients he or she needs to perform at his or her mental and physical best every day.

Additionally, healthy lifestyle habits and maintaining optimal levels of essential vitamins and minerals in the body help maintain overall health and keep the body's immune system working as it should. Body Rox powers health with advanced levels of antioxidant vitamins A, E, and C, as well as a full complement of B vitamins, vitamin D, zinc, and selenium.

THE SCIENCE OF BODY ROX

Proper nutrition is the key to staying energized throughout the entire day. Body Rox is an exceptional formula to ensure teens are fulfilling their daily nutrient requirements. The B vitamins—especially B12, thiamin, and niacin—are essential for energy production because they help turn the foods we eat into useable fuel. Magnesium, copper, and zinc also help the body get the energy it needs by supporting nutrient metabolism.*

The ingredients in Body Rox also support the needs of young athletes. Antioxidants are helpful for handling increased free-radical production caused by intense exercise, and strong bones, proper muscle function, and a healthy heart all depend on calcium and many other minerals. Calcium assimilation, supported by vitamin K, during the developing years is also essential for bone health later in life. Vitamins C, D, and E play a role in respiratory and cardiovascular function. Protein metabolism—supported by riboflavin, folic acid, B6 and B12, and molybdenum—is essential for muscle tissue development. Vitamin C also plays a key role in synthesizing collagen—a structural protein that is a major component of connective tissue and muscle.*

In addition to helping the body, providing the brain with consistent levels of optimal nutrition will also keep it working at its best. Many B vitamins, including biotin, niacin, thiamin, and folate, are essential to healthy brain activity. A number of minerals, including manganese, are also needed to influence neural activity. Choline is involved in memory function. Some studies also suggest multivitamin/mineral supplementation has been beneficial for improvements in “mental tiredness” after complex tasks as well as in mood regulation, which is also controlled in the brain.*

Beta carotene (provitamin A) and carotenoids, such as lutein and lycopene, along with vitamins C and E, are all crucial for skin health. Zinc and copper play a role in protein structure, which can impact skin appearance.*

THE USANA DIFFERENCE

In three tablets a day, USANA's Body Rox provides nutrients that adolescents and teens need to be their best every day. Only Body Rox offers USANA's exclusive Antioxidant Phytonutrient Complex, which includes a special blend of antioxidant-rich phytonutrients, including Olivol®, that defend the body's cells from oxidative damage caused by pollution, stress, poor diets, and sunlight. It also contains a generous amount of vitamin D, which helps with the utilization of calcium in the bones. And a tasty, fruit-flavored coating helps make swallowing each tablet just a little bit easier.

Mother/Child

Usanimals

Chewable daily vitamin, mineral, and antioxidant supplement for children

Usanimals, one of the USANA products for kids, is an advanced formulation of important nutrients beneficial for the maintenance of good health.

THE BENEFITS OF USANIMALS

Many studies show that most children do not receive the nutrition they need from their diets. Less than 25 percent of them eat the recommended five servings or more of fruits and vegetables each day, and adequate amounts of key nutrients such as zinc, vitamin B6, magnesium, and calcium are missing from their diets. Vitamins C and D are also often deficient. A quality nutritional supplement, such as Usanimals, can help ensure that none of these essential nutrients are missing.

THE SCIENCE OF USANIMALS

Beta-carotene: Beta-carotene is converted to vitamin A in the body. Vitamin A helps in the maintenance of eyes, skin, and the proper function of the immune system.*

B vitamins: Usanimals contains a carefully proportioned complex of B vitamins, which support a healthy metabolism and normal growth and development.*

Vitamin C: An antioxidant critical to maintaining good health, vitamin C supports many important functions and is vital for the synthesis of collagen—a type of connective tissue. Collagen is the most abundant structural protein in the body and is essential for healthy skin, muscles, teeth, bones, skin, and blood vessels.*

Vitamin D: In addition to its important role in supporting bone health, vitamin D helps in the absorption and use of calcium and phosphorus throughout the body. It also helps maintain healthy immune function.*

Vitamin E: Vitamin E helps protect against free-radical damage to maintain good health. Eye health also depends on adequate amounts of vitamin E as well as vitamins A and C.*

Calcium: A healthy diet with adequate calcium and vitamin D, along with regular physical activity, helps in the healthy development of strong bones and teeth.*

Iodine: The thyroid gland releases hormones that are important for healthy brain development, protein synthesis, metabolic function, and enzymatic activity. Iodine helps in the function of the thyroid gland to support normal growth and development.*

Iron: Most iron in the body is found in hemoglobin, the protein in red blood cells that helps supply oxygen to tissues. It also plays a role in cellular growth.

Magnesium: As a cofactor in more than 300 enzyme systems, magnesium helps support good health throughout the body. It supports a healthy metabolism and energy, the normal development of bones and teeth, tissue formation, and muscle and nerve function.*

Zinc: Zinc is a necessary element for normal growth and development. It is essential for supporting healthy metabolism, skin, connective tissue formation, and immune function.*

THE USANA DIFFERENCE

Chewable Usanimals have a great-tasting natural berry flavor with no artificial flavors or sweeteners. The animal shapes stamped on each tablet also make staying healthy fun.

ITEM #105

Directions: Chew one (1) tablet for children 24-47 months, or two (2) tablets for children 4 years and older.

Supplement Facts			
Serving size: 1 Tablet			
Amount Per Serving		%DV for children 2 through 3 years of age	%DV for adults and children 4 or more years of age
Vitamin A (100% (1500 mcg) as Beta Carotene)	750 µg RAE	250%	83%
Vitamin C (as Ascorbic Acid and Sodium Ascorbate)	125 mg	833%	139%
Vitamin D3 (as Cholecalciferol)	12.5 µg	83%	83%
Vitamin E (as d-alpha Tocopheryl Succinate)	33.5 mg	558%	223%
Vitamin K (as Phylloquinone)	20 µg	67%	17%
Thiamine (Vitamin B1)	1.25 mg	250%	104%
Riboflavin (Vitamin B2)	1.25 mg	250%	96%
Niacin (as Niacinamide)	10 mg NE	167%	63%
Vitamin B6 (as Pyridoxine HCL)	1.25 mg	250%	74%
Folate (as 200 µg Folic Acid)	333 µg DFE	222%	83%
Vitamin B12 (as Cyanocobalamin)	20 µg	2222%	833%
Biotin	75 µg	938%	250%
Pantothenic Acid (as D-Calcium Pantothenate)	5 mg	250%	100%
Calcium (as Milk Calcium)	75 mg	11%	6%
Iron (as Ferrous Fumarate USP)	2 mg	29%	11%
Iodine (as Potassium Iodide)	50 µg	56%	33%

Mother/Child

BiOmega Jr.

A delicious burst of omega-3s to support healthy growth and development

USANA's BiOmega Jr. omega-3 supplement delivers a healthy amount of the omega-3 fatty acids eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), along with vitamin D, in a creamy orange-pineapple flavored gel.

THE BENEFITS OF BIOMEGA JR.

Omega-3 fatty acids assist with maintaining the fluidity and permeability of cell membranes, and healthy brain cell membranes contain over 10 times more concentrated omega-3s than the rest of the body. Our bodies require omega-3 fatty acids, especially DHA, for proper brain development and structure, and DHA is thought to support electric signaling in the brain, underscoring its role in learning ability, memory, concentration, and behavior and mood. And some studies have suggested that intakes of omega-3 polyunsaturated fats can contribute to improved performance on tests for verbal learning ability and listening comprehension. It's also been found that low plasma levels of DHA and EPA have been associated with various developmental problems in children, such as impaired cognitive development.

Essential fatty acids, including EPA and DHA, also influence nerve conduction, making them vital for the health of the central nervous system, which stems from the brain.

THE SCIENCE OF BIOMEGA JR.

A growing body of research shows the importance of omega-3 fatty acids for health, even at the earliest stages of life, but nearly 80 percent of children in North America are estimated to be deficient in omega-3s. In order to ensure a child's healthy growth and development, it may be necessary to add a quality omega-3 supplement to their diet.

Omega-3 fatty acids, including DHA and EPA, are precursors for eicosanoids, which are mediators of many biochemical processes and influence interactions between cells. Thus, they are necessary for the normal function and production of healthy cells throughout the body, making them vital for ongoing healthy growth and development.

Developing a healthy body early in life can have long-term, positive effects. Some research suggests that early nutrition can induce lifelong effects on metabolism, growth, neurodevelopment, and cardiovascular health. Several clinical studies have shown omega-3 fatty acids are beneficial for the heart and vascular system throughout our lives, and supportive—but not conclusive—research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of BiOmega Jr. provides 350 mg of EPA and 230 mg of DHA omega-3 fatty acids. (See nutrition information for total fat, saturated fat, and cholesterol content.)

THE USANA DIFFERENCE

A quality supplement like USANA's BiOmega Jr. can make it fun and easy for kids to get the DHA and EPA they need for healthy minds and bodies without taking a supplement full of added sugar. Unlike many popular brands that supply only small amounts of omega-3s, BiOmega Jr. supplies a valuable amount of highly absorbable DHA and EPA in a delectable orange-pineapple flavored gel with no fishy taste. With 1,000 IU of added vitamin D, BiOmega Jr. also supports developing bones and overall good health. Packaged in single-serve packets, kids will love having BiOmega Jr. as a treat every other day, and parents will love how convenient it is to give their kids a healthy supplement, either straight from the packet or mixed into yogurt or other creamy foods. For best results, store in the refrigerator and serve cold.

ITEM #144

Recommended Use:

Ages 4–12 years—take one (2.5 g) packet every other day, with or without food. Serve chilled for an even better taste.

Optimizers

USANA's line of nutritionals has a wide range of products for most major body systems: cardiovascular, nervous, skeletal, endocrine, digestive, and cellular function. This allows you to target specific areas of your health based on your personal needs.

Cardiovascular

Proflavanol C¹⁰⁰/Proflavanol C²⁰⁰

Powerful bioflavonoid supplement

Proflavanol C provides a powerful combination of grape seed bioflavonoids and USANA's proprietary Poly C vitamin C blend for excellent antioxidant defense and support for healthy circulation, normal immune function, healthy skin, and more.*

THE BENEFITS OF PROFLAVANOL C

Our modern lifestyles are full of threats to our health. Pollution, fatty diets, and UV exposure all can result in oxidative damage to our cells. Stress, exposure to pathogens, or even intense exercise can tax our immune system.

Proflavanol C¹⁰⁰ is produced using USANA's cutting-edge Nutritional Hybrid Technology, which combines 100 mg of grape seed extract and 300 mg of vitamin C in one pill. Proflavanol C²⁰⁰—a single, high-potency tablet—provides twice the amount in one tablet. This powerful combination is designed to help protect health in a number of ways:

- Maintains good health by neutralizing free radicals, which, over time, can cause excessive oxidative stress*
- Supports circulatory and cardiovascular health*
- Helps retain healthy, normal cholesterol levels already within normal range*
- Supports balanced immune function*
- Maintains healthy, younger-looking skin*

THE SCIENCE BEHIND PROFLAVANOL C

Proanthocyanidins, a subclass of bioflavonoids found in blue and purple berries and highly concentrated in grape seeds, have been found to be 50 times more potent than vitamin E when it comes to neutralizing free radicals—the antioxidant activity that can help protect cells against damaging oxidative stress. And vitamin C has long been considered the “master antioxidant,” as it not only actively neutralizes free radicals but helps to regenerate other antioxidants as well. Working together in Proflavanol C, vitamin C and grape seed bioflavonoids provide powerful antioxidant protection to help you maintain good health.*

These two ingredients are also important to support and maintain sound cardiovascular function. Consumption of red wine, which contains proanthocyanidins, is believed to contribute to the “French Paradox”—the fact that the French maintain good heart health despite a diet high in saturated fat. And, vitamin C can also help maintain long-term cardiovascular health. Together, these nutrients help protect against low-density lipoprotein (LDL) oxidation as well as support healthy blood vessels, normal capillary strength, and endothelial function to promote good circulation. Combining grape seed extract with vitamin C, as in our Proflavanol C formula, can help retain healthy microvascular function. Interestingly, this only occurs when epicatechin, another of the bioflavonoids in grape-seed extract, is also present in the blood.*

Grape-seed extract also works synergistically with vitamin C to protect cells and enhance your body's normal, natural immune function. Your immune system is an incredibly complex and intricate protective mechanism designed to shield your body. And when your shield is weak, your body is at risk. Grape-seed bioflavonoids modulate cell-signaling pathways related to immune function, while vitamin C plays a key role in immune function by supporting the normal production of white blood cells and antibodies.*

Vitamin C not only helps maintain the health of your immune system, but it's a factor in many aspects of good health. Vitamin C helps in the development and maintenance of bones, connective tissue, teeth, and gums. It also protects fats and proteins from oxidation generated during normal metabolism.

One type of connective tissue supported by vitamin C is collagen, which is integral to skin's elasticity and firmness. Collagen tends to start breaking down as we age, and vitamin C helps regulate synthesis for this protein.

Available for MyHealthPak

HYBRID

ITEM #110

Directions: Adults, take two (2) to four (4) tablets daily, preferably with food.

Supplement Facts		
Serving Size: 2 Tablets		
Servings Per Container: 28		
Amount Per Serving		%DV
Vitamin C (as Poly C® Blend: Potassium, Calcium, Magnesium, and Zinc Ascorbates)	600 mg	667%
Grape Seed Extract (<i>Vitis vinifera</i> L., seeds)	200 mg	1
†Daily Value (DV) not established.		

Other Ingredients: Microcrystalline Cellulose, Pregelatinized Starch, Croscarmellose Sodium, Ascorbyl Palmitate, Silicon Dioxide, Dextrin, Natural Grape Flavor, Dextrose, Soy Lecithin, Sodium Carboxymethylcellulose, Stevia, Sodium Citrate.

Contains: Soy.

Manufactured By: USANA Health Sciences, Inc., 3838 W. Parkway Blvd. Salt Lake City, Utah 84120 U.S.A.

Laboratory tested, quality guaranteed. Meets USP specification for uniformity, potency, and disintegration where applicable.

Keep out of reach of children. Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition.

There is a safety seal under the cap. Do not use if the seal is broken or missing.

Keep tablets in original container with the lid tightly closed between uses. Store in a cool, dry place.

THE USANA DIFFERENCE

A unique supplement made with USANA's innovative Nutritional Hybrid Technology, Proflavanol C combines the highest quality grape-seed extract with the free-radical quenching power of USANA's Poly C vitamin C blend. It effectively raises levels of vitamin C in the body for a longer period of time than equal amounts of ascorbic acid only (ascorbic acid is the most common form of vitamin C used in other supplements). The dynamic combination of these two nutrients in one unique supplement provides your body with powerful nutrients to help you maintain good health.*

From the Lab

A study USANA conducted in collaboration with Boston University showed supplementation with grape-seed extract and vitamin C has a positive influence on healthy blood flow to support cardiovascular health.*

Cardiovascular

CoQuinone 30/CoQuinone 100

An optimal combination of coenzyme Q10 and alpha-lipoic acid

MY Available for MyHealthPak

Supplement your cells and help them function with coenzyme Q10 antioxidants, found in CoQuinone 30 and CoQuinone 100.*

THE BENEFITS OF COQUINONE

When we're young, our bodies store or produce ample amounts of coenzyme Q10 (CoQ10), used by the hundreds of mitochondria in each of our cells to generate adenosine triphosphate (ATP)—the form of energy our cells use to function. As we age, the amount of CoQ10 we absorb or produce naturally declines. CoQ10 may also be depleted by several other factors, including overall nutritional status and inadequate levels of the B vitamins, vitamin C, and selenium. A high-quality, bioavailable CoQ10 supplement, such as CoQuinone, can help replenish our cells' stores of CoQ10, and help hardworking cells, such as those in the heart, stay healthy.*

CoQuinone also provides antioxidant protection. Formation of damaging free radicals is a byproduct of energy production in the mitochondria. And nature has designed a remarkable molecule in CoQ10 to not only assist in ATP production, but to also work in concert with other antioxidants to clean up the free radicals produced during energy production and protect against its damaging effects. As an antioxidant, it rivals vitamins E and C. In addition, CoQ10 helps regenerate and recycle vitamin E.*

This unique supplement combines a well-absorbed form of CoQ10 with alpha-lipoic acid for maximum benefits. A key nutrient involved in converting glucose into energy, alpha-lipoic acid plays many roles in the body. It's especially beneficial because it acts like a super antioxidant, going to work both inside the cell and in the outer cell membrane to fight off free radicals. It also assists cells to recycle CoQ10 once it has oxidized to provide even more defense against damaging oxidative stress.*

THE SCIENCE OF COQUINONE

The energy every cell needs to function is produced through a complex process in the mitochondria, which are organelles within the cell. CoQ10 is an essential part of the electron transport chain the mitochondria use to make ATP. USANA's CoQuinone dietary supplement is formulated to deliver high-quality, highly bioavailable CoQ10 to the cells to support the production of ATP.*

Cells with the highest energy demands, such as in the heart, have the highest levels of CoQ10. This complex relationship has been studied for years in the United States, Europe, and Japan for its role in producing cellular energy for the heart and other muscles. Several human clinical trials demonstrate CoQ10's effectiveness in the maintenance of good heart function.*

THE USANA DIFFERENCE

CoQuinone 30 contains a full 30 mg of CoQ10 and 12.5 mg of alpha-lipoic acid per soft gel capsule. And CoQuinone 100 is more than three times stronger to provide a full daily dose in only one gel cap. USANA's unique formulation provides these important antioxidants in a natural mixture of lecithin and vegetable-derived glycerin monooleate in a base of medium chain triglycerides. Clinical tests performed in USANA's laboratories show CoQuinone delivers CoQ10 in much higher quantities than from solid formulations or from competitive liquid formulations, making CoQuinone more bioavailable than other CoQ10 products.*

CoQuinone contains CoQ10 in the form of ubiquinone. Some competitors use ubiquinol instead, claiming it is a more bioavailable form of CoQ10, but a USANA in-house study confirmed other recently published research showing both forms are equally beneficial.

ITEM #123

Directions: Take one (1) or two (2) capsules daily, preferably with food.

Supplement Facts		
Serving Size: 1 Capsule		
Servings Per Container: 56		
Amount Per Capsule		%DV
Coenzyme Q10	30 mg	†
Alpha-Lipoic Acid	13 mg	†
† Daily Value (DV) not established.		

Other Ingredients: Medium Chain Triglycerides, Gelatin, Glycerin Monooleate, Soy Lecithin, Glycerin, Purified Water, Annatto Seed Extract (Color), Titanium Dioxide.
Contains: Soy.
Manufactured By: USANA Health Sciences, Inc. 3838 West Parkway Blvd. Salt Lake City, Utah 84120 USA
Laboratory tested, quality guaranteed. Meets USP specification for uniformity, potency, and disintegration where applicable.
Keep out of reach of children. Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition.
There is a safety seal under the cap. Do not use if the seal is broken or missing.
Store below 25° C

Cellular Function BiOmega

Concentrated omega-3 fatty acid supplement

USANA's BiOmega fish-oil supplement contains a concentrated dose of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) to support healthy cellular function throughout the body.*

THE BENEFITS OF BIOMEGA

Your cells have a phospholipid bilayer that acts as a gatekeeper—keeping things out or letting them in. Key components of that bilayer, omega-3 and omega-6 fatty acids play a significant role in maintaining our good health at the most basic level. A 1:1 ratio of omega-3 and omega-6 is ideal, as they work together to promote health. However, average diets contain significantly more omega-6s. Eating fatty fish and supplementing with BiOmega are effective ways to increase omega-3 levels to help maintain a proper balance and support healthy cellular function.*

Omega-3 fatty acids are effective in supporting joint health, as well as healthy neural development and function. Omega-3s also encourage healthy skin. In addition, combining fish oil intake with regular exercise is more supportive than exercise alone for helping reduce body fat and supporting metabolic health.*

Supportive but not conclusive research shows that consumption of EPA and DHA may reduce the risk of coronary heart disease.* One serving of BiOmega provides 1050 mg of EPA and DHA omega-3 fatty acids. (See nutrition information for total fat, saturated fat, and cholesterol content.)

It is important that women who are pregnant get sufficient amounts of omega-3 fatty acids to support their child's brain and eye development.*

THE SCIENCE OF BIOMEGA

The omega-3 long-chain fatty acids are the biosynthetic precursors of eicosanoids, which are hormone-like substances that help retain normal health processes in our bodies.*

Incorporation of omega-3 fatty acids into the diet helps to support articular cartilage and joint comfort.*

Fatty acids influence brain development and structural integrity, impacting biochemical efficiency in the brain. Neural phospholipid membranes selectively concentrate DHA in photoreceptors and some cell-signaling sites, while the retina selectively incorporates EPA to support eye fluidity.*

Sufficient levels of omega-3 and omega-6 fatty acids can help maintain skin's barrier function to keep it looking healthy, and EPA may also help protect skin against the drying effects of the sun.*

EPA and DHA help maintain healthy high-density lipoprotein and triglyceride levels in plasma, which are important for supporting healthy arterial function and blood flow.*

Pre- or post-partum women should consume DHA and EPA to support the growth and development of their child. DHA plays a role in the healthy development of the visual system, and it is one of the dominant fats in the nerve cells of fetal and infant brains.*

THE USANA DIFFERENCE

Produced from sustainably raised cold-water, deep-sea fish oil, USANA's BiOmega includes a careful balance of DHA and EPA at a more potent dose than many competitors.

BiOmega is purified to be virtually free of contaminants. Also free of trans-fatty acids, each capsule contains 2 mg of mixed natural tocopherols to maintain product quality during storage. BiOmega is also fortified with vitamin D to supply an additional 200 IU per day.* And with added lemon flavoring, there is no fishy aftertaste.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Cellular Function

Booster C 600

Immune-support supplement

USANA's Booster C 600 is a delectable, lemon-berry flavored powder that supplies a powerful blend of ingredients shown to support immune defense. This product is for occasional use during times of stress or when you're feeling run down.*

THE BENEFITS OF BOOSTER C 600

Deficiencies in vitamin C or zinc, which are needed for the normal development and function of many white blood cells, may make individuals more susceptible to impaired immune response. Healthy adults generally need at least 75 to 90 mg of vitamin C and 8 to 11 mg of zinc per day to avoid deficiency.*

In addition to delivering 10 mg of zinc, Booster C 600 is a potent source of vitamin C. An essential, water-soluble nutrient that our body cannot produce on its own, vitamin C must be obtained from the diet. It supports white blood cell production and is maintained in cells to protect against oxidative stress, which is important for maintaining cellular integrity and proper function. Vitamin C also helps prolong the activity of vitamin E, which is another nutrient important for healthy immunity. Booster C 600 includes a unique combination of ascorbic acid, sodium ascorbate, and USANA's proprietary Poly C®, which has been shown to provide higher and longer-lasting levels of vitamin C in the blood than ascorbic acid itself.*

THE SCIENCE OF BOOSTER C 600

People have used the herb Echinacea throughout history to support the immune system. Several laboratory and animal studies suggest that Echinacea contains active substances that enhance the activity of the immune system, including polysaccharides, glycoproteins, alkamides, volatile oils, and flavonoids. With short-term use, Echinacea purpurea extract has been shown to naturally support a healthy immune system. It is recommended that Echinacea only be used for short periods, generally two weeks or less. Elderberry is another herb long used for its beneficial effect on the immune system. Elderberries contain more anthocyanins—a type of flavonoid—than blueberries. As antioxidants, anthocyanins help protect healthy cells and support the production of cytokines to regulate immune responses.*

THE USANA DIFFERENCE

Many immune health products contain vitamin C, but only Booster C 600 contains USANA's proprietary Poly C vitamin C blend to deliver stronger, longer-acting antioxidant defense. Blended with a high quality, effective form of Echinacea, plus zinc and elderberry, Booster C 600 provides a perfect, portable solution for giving your immune system a little added support.*

ITEM #143

Recommended Use:

Ages 4–12 years—take one (2.5 g) packet every other day, with or without food. Serve chilled for an even better taste.

Supplement Facts	
Serving Size: 1 stick pack (3.9 g)	
Servings Per Container: 28

USANA Vitamin D is necessary for normal bone mineralization and growth, maintenance of muscle strength and coordination, cardiovascular health, and robust and balanced immune function.

THE BENEFITS OF VITAMIN D

Vitamin D status is a factor in the maintenance of good health. However, reports continue to show that populations around the world are suffering from vitamin D deficiency. In the U.S. alone, only one third are getting adequate amounts of vitamin D daily. The problem is widespread and increasing, with potentially severe repercussions for overall health.

Many cells in your body have vitamin D receptors and need vitamin D to function properly, including those in your skin and brain. USANA's Vitamin D supplement is formulated with a high level of vitamin D to help prevent deficiency by ensuring you get adequate amounts throughout the entire year.

THE SCIENCE OF VITAMIN D

Vitamin D promotes a healthy, balanced immune system through its key role in regulation and differentiation of immune system cells. It also has been linked to healthy endothelial function, which is important for cardiovascular health. And, it also helps maintain normal functioning of the nervous system.*

In addition, recent research has shown the following:

- Vitamin D may play a role in keeping our lungs healthy, with higher concentrations of vitamin D resulting in positive effects on lung function and health.*
- Vitamin D may play a role in helping elderly people maintain lean muscle mass.*

Healthy vitamin D levels are a key part of minimizing age-associated bone loss. Vitamin D supports the development and maintenance of bones and teeth by helping in the absorption and use of calcium. Calcium is the major structural element of bones and teeth. Your body needs several nutrients in order for calcium to be absorbed and used properly. Two of these nutrients are vitamin D and vitamin K. Vitamin D increases absorption of calcium from the small intestine so the body receives maximum benefit, while vitamin K helps make sure calcium builds up in the bones and not in soft tissues.*

Although vitamin D can be toxic in very large doses, toxicity is rarely the biggest cause for anxiety. Instead, deficiency has become relatively common. Vitamin D deficiency has been correlated to a number of health concerns. Because of the prevalence of deficiency, in the most recent revision of the Dietary Reference Intakes (DRI), the recommended dietary intake for certain age groups was increased as much as 50 percent. Talk to your doctor about healthy vitamin D levels, and ask for a test to find out if you are deficient.

THE USANA DIFFERENCE

USANA's Vitamin D supplement is made with cholecalciferol (vitamin D3), which research suggests is better than competing forms at raising levels of vitamin D in the blood. A clinical study conducted by USANA scientists showed individuals taking USANA products are six times more likely to have vitamin D levels in the optimal range.*

Even when the winter months are behind us, it doesn't mean your body needs less of a good thing. USANA's Vitamin D supplement is a safe and easy way to get 2,000 IU of maximum-strength vitamin D enhanced with 30 µg of vitamin K.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Cellular Function

Proglucamune

Potent immune-support supplement with zinc and the InCelligence Beta-Glucan Complex*

USANA's Proglucamune daily supplement combines ancient wisdom with modern science to support robust immune function. The unique combination of zinc plus baker's yeast and reishi and shiitake mushrooms in the InCelligence Beta-Glucan Complex is designed to help support your body's natural defenses.*

THE BENEFITS OF PROGLUCAMUNE

Our modern lives demand a more effective way to stay fit and well, even during occasional times of stress. Proglucamune helps your immune system meet your unique needs and supports your body's ability to adapt and respond to the effects stress or strenuous exercise can have on immune function. The InCelligence Beta-Glucan Complex is formulated with USANA InCelligence Technology to prime your immune cells' natural protective responses, so they can protect your health effectively.*

THE SCIENCE OF PROGLUCAMUNE

The immune system is made up of many biological structures and processes that detect a wide variety of foreign agents and pathogens and distinguish them from the body's own healthy tissue. There are three types of immunity: surface immunity, innate immunity, and adaptive immunity. Surface immunity is the first line of defense—the barriers that actively keep pathogens out.

If a pathogen is able to cross a surface barrier, then the innate immune system defenses are stimulated. Innate immunity includes a host of reactions, including the destruction of pathogens. The nutrients in the InCelligence Beta-Glucan Complex have a distinct molecular structure that binds to receptors on immune cells to prime their natural protective ability. This activity enables your body's protective mechanisms to respond effectively without overstimulating an immune response. Proglucamune also supports the adaptive immune system, which is called into action if the innate immune system is overwhelmed.*

Proglucamune contains a potent blend of ingredients:

- Reishi (*Ganoderma lucidum*) and shiitake (*Lentinula edodes*) mushrooms have been used for thousands of years in traditional Chinese medicines to support vitality. They are rich in polysaccharides with immunomodulating properties and help promote cellular protection.*
- A specific strain of baker's yeast (*Saccharomyces cerevisiae*) provides beta 1,3/1,6 glucan, a natural carbohydrate shown to prime the immune system. Clinical studies have shown that the strain of baker's yeast in Proglucamune provides exceptional support for immunity and daily wellness, even during times of occasional, mild stress.*
- Zinc is an essential trace element that supports proper functioning of immune cells and serves as an intracellular signaling molecule for immune cells, enhancing the effectiveness of the InCelligence Beta-Glucan Complex. It also acts as an antioxidant to help defend against oxidative stress.*

THE USANA DIFFERENCE

Proglucamune is a superior product for helping immune cells adapt to your unique needs and protect your health, even during times of stress. The InCelligence Beta-Glucan Complex contains a certified organic blend of mushrooms combined with a strain of baker's yeast proven to be effective for priming cells' natural protective ability. The addition of zinc makes Proglucamune a perfect solution for promoting your body's natural immune responses and supporting overall health and well-being every day.*

USANA CopaPrime+

Advanced cognitive supplement formulated to support mental performance and healthy brain aging*

Kosher

Available for MyHealthPak

ITEM #126

Directions: Adults take two (2) tablets daily, preferably with food.

Supplement Facts

Serving Size: 2 Tablets
Servings Per Container: 28

Amount Per Serving	%DV
InCelligence Cognitive-Support Complex	
Bacopa Extract (<i>Bacopa monnieri</i> , whole herb)	300 mg †
Coffee Cherry Extract (<i>Coffea arabica</i> , fruit)*	100 mg †
American Ginseng Extract (<i>Panax quinquefolius</i> L., root)	100 mg †

†Daily Value (DV) not established

Other Ingredients: Microcrystalline Cellulose, Croscarmellose Sodium, Ascorbyl Palmitate, Silicon Dioxide, Organic Maltodextrin, Organic Sunflower Lecithin, Organic Palm Olein, Organic Guar Gum.

Keep out of reach of children. Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition. Laboratory tested, quality guaranteed. Meets USP specification for uniformity, potency, and disintegration, where applicable.

There is a safety seal under the cap. Do not use if the seal is broken or missing.

*Protected under US Patents 6572915, 7754263, 7807205, 7815959, 8597710, 8603563, 8603564, and foreign applications, held by FutureCeuticals.

The modern world takes a toll on both your body and mind. You're constantly glued to your computers or being bombarded by smart phones. This endless stimulation can be hard to process. Help your brain power through with USANA CopaPrime+.*

Formulated with American ginseng and the InCelligence Cognitive Support Complex, CopaPrime+ is a powerful combination of leading cognitive ingredients designed to support your brain and cognitive functions. Taken two a day, preferably with food, CopaPrime+ can assist with peak mental performance to help you keep up with the demands of your daily life.*

THE BENEFITS OF COPAPRIME+

When you add CopaPrime+ to your daily routine, you'll assist your cognitive functions to focus on the task at hand. It's not a miracle drug, but rather a supplement that optimizes your mental strength. Your brain powers everything in your life, and CopaPrime+ supports healthy short-term and long-term cognitive functions.*

Short-Term Benefits

- Supports performance-driven activities like focus, short-term memory, and resilience to stressors.*
- Strengthens and maintains mood.*

Long-Term Benefits

- Promotes healthy brain structure and function during the aging process, including supported memory and mental clarity.*

THE SCIENCE OF COPAPRIME+

American Ginseng

- Antioxidant properties help maintain the healthy function of brain cells, neurons, and nerve cells.*
- Support for cognitive tasks related to the speed and accuracy of processing information.*
- Mood-support properties to help manage situational stressors.*

Bacopa Monnieri

- Supportive cognitive function benefits including learning, memory formation, and information processing.*
- Can support healthy cognitive pathways in aging populations.*

Coffee Fruit Extract

- Supports alertness, mental clarity, and focus while supplying antioxidants and aiding neuroprotective properties.*

InCelligence Cognitive Support Complex

THE USANA DIFFERENCE

With CopaPrime+, you'll be able to focus on the task at hand. You'll have the targeted brain health needed to support important cognitive functions. American ginseng acts as a powerful neuroprotectant to help maintain your healthy brain cell, neuron, and nerve cell functions.*

At only 3 percent of your total body weight, your brain requires 15 percent of your body's total blood and oxygen supply. CopaPrime+ contains naturally derived nootropics to support healthy brain function while promoting brain health. They can aid in vasodilator function to expand the small arteries and veins in the brain for better circulation. Adding nootropics to your daily regimen assists cognitive and memory abilities and supports neuroplasticity.*

Sounds complicated (and it is!), but USANA scientists have created this supplement to help you focus at work and at home, preparing your brain to undertake all that's thrown at it.*

Nervous

Visionex DS

Advanced eye health supplement with increased levels of lutein*

USANA's Visionex DS supplement is designed to help maintain long-term eye health and support visual performance.*

THE BENEFITS OF VISIONEX DS

One important reason for the loss of visual acuity over time is the damage to our eyes caused by environmental factors. Except when we are asleep, our eyes are constantly exposed to environmental elements such as air pollution, dryness, and oxidative damage from sunlight. The ingredients found in Visionex DS work together to help support healthy vision. The formula is designed to protect the delicate tissues of the eye from photo-oxidation.*

Supplementation with the lutein and zeaxanthin in Visionex DS can also help preserve visual function. Use of these important carotenoids sustains tolerance to and recovery from exposure to bright light, supports visual acuity in low-light or hazy conditions, and can maintain healthy vision by making edges appear clearer.*

Research also suggests that lutein may be beneficial in maintaining healthy skin.*

THE SCIENCE OF VISIONEX DS

When light shines through the inner layers of the retina, it is filtered through the yellow pigment of the macula. The macula is especially vulnerable to oxidative damage because it has a high metabolic rate and because the light focused on it encourages the production of free radicals. The yellow pigment helps protect the sensitive receptors in the macula from the potentially harmful effects of short-wavelength light.*

Macular pigment includes the carotenoids lutein and zeaxanthin, an isomer of lutein, which protect eye health in two ways: first as filters that absorb some of the high-energy blue light and, second, as antioxidants that quench light-induced free radicals and reactive oxygen species.

Average levels of macular pigment tend to be low, especially in those who do not eat many fruits and vegetables. And maintaining an adequate level is important, not only for long-term eye health, but also because macular pigment optical density (MPOD) has been linked to visual performance. Supplementing with lutein and zeaxanthin can help increase MPOD, which helps support visual acuity and maintain long-term eye health and tolerance to glare, contrast, and photostress.*

In addition to lutein and zeaxanthin, the Visionex DS formulation contains three other important nutritional aids to eye health: bilberry extract, vitamin C, and zinc. The bilberry fruit is rich in antioxidant anthocyanosides and has been shown to help retain healthy capillaries, including those in the eye. Vitamin C provides additional antioxidant protection, especially to the retina, where the concentration of vitamin C is significantly higher than that found in the blood. And zinc appears to provide an additive effect to antioxidants in promoting good visual acuity.*

Lutein and zeaxanthin also offer benefits for skin appearance by increasing surface lipids (good for hydration and elasticity) and enhancing natural antioxidant photo-protective activity to reduce the visible effects of the sun. The vitamin C in Visionex DS also supports the synthesis of collagen, which is an important structural protein in the skin.*

THE USANA DIFFERENCE

Sun exposure and screen time in front of a computer's glare can take a toll on your vision. Guard your long-term eye health with proper protection, such as sunglasses, and provide your eyes with the dietary carotenoids they need. The links between lutein and zeaxanthin and eye health are so strong that several national and regional health organizations have recommended an increase of dietary lutein. The amounts of lutein, zeaxanthin, and other eye-supporting nutrients working together in Visionex DS can help protect the future of your eyesight.*

Skeletal

MagneCal D

A balanced magnesium and calcium supplement fortified with vitamin D to support bone health and more.*

Dietary surveys show that the population is consuming more calcium now than in recent decades; however, the inadequate consumption of magnesium and vitamin D has reached almost epidemic status. MagneCal D offers a solution to promote a more ideal balance. With a 1:1 ratio of magnesium and calcium, plus advanced levels of vitamin D, it is formulated to provide optimal amounts of all three nutrients, so they can work together for maximum effectiveness.*

THE BENEFITS OF MAGNECAL D

The entire skeletal structure constantly remodels itself, and in 10 years, you'll have a completely new skeleton. This remodeling process requires sufficient amounts of magnesium, calcium, and vitamin D from the diet to form the bones properly.*

The body stores a significant amount of dietary magnesium and calcium in bones and can pull nutrients from them to support a multitude of physiological functions. But if our bodies consistently use more calcium and magnesium than is replaced, it may lead to bone loss.

Vitamin D also plays many important roles in the body, including supporting proper mineral absorption for bone health. In fact, all three of these nutrients work as co-factors, each playing a role in the proper utilization of the others.*

USANA's MagneCal D can help you get sufficient amounts of magnesium, calcium, and vitamin D every day to help in the maintenance of your bones and teeth.*

THE SCIENCE OF MAGNECAL D

The nutrients in MagneCal D support cell-signaling and help provide a nutritional foundation for the activities and pathways targeted by USANA® products made with USANA InCelligence Technology.*

Higher intakes of magnesium have been associated with higher levels of bone mineral density.* Additionally, magnesium is a co-factor in more than 300 enzyme systems that control various natural reactions in the body, including:

- Protein, DNA, and RNA synthesis
- Normal nerve transmission
- Neuromuscular conduction and muscular contraction
- Healthy glucose metabolism

Many of these benefits contribute to magnesium's support for cardiovascular health. Research has also shown that magnesium can help support healthy or normal arterial elasticity.*

Adequate vitamin D and calcium, as part of a healthy diet, along with physical activity, may reduce the risk of osteoporosis in later life. Vitamin D aids calcium and phosphorus absorption and utilization. Without sufficient vitamin D, bones can become thin, brittle, or misshapen.*

In addition to supporting strong bones and teeth, the body uses calcium to support many processes, including healthy blood clotting, cell division, and more.*

MagneCal D also contains silicon and boron. Silicon gives stability to connective tissues and is essential for proper calcium utilization. Boron reduces calcium excretion and increases deposition of calcium in the bone.*

THE USANA DIFFERENCE

MagneCal D offers a balanced ratio of calcium to magnesium plus advanced amounts of vitamin D. It is carefully formulated for excellent absorption to give you the best support for healthy bones.*

MagneCal D Chewable is a carefully formulated, comprehensive bone health supplement in a chewable form.*

THE BENEFITS OF MAGNECAL D CHEWABLE

USANA's MagneCal D Chewable can help ensure you get sufficient amounts of calcium every day to help in the maintenance of your bones and teeth. The chewable tablet is ideal for teens, those who dislike swallowing tablets, and pregnant women.*

Because the teenage years are a critical stage in development, USANA formulated this chewable calcium supplement to make it easier for those 12 and over to get enough calcium in their diet to keep bones healthy and strong. Preadolescent girls who take a calcium supplement experience greater gains in bone mineral content than those who do not.*

THE SCIENCE OF MAGNECAL D CHEWABLE

Our entire skeletal structure is not static. It constantly remodels itself and, every 10 years, we have an entirely new skeleton. This remodeling process requires sufficient amounts of calcium and vitamin D to form the bones properly. And, if there isn't enough calcium or vitamin D available from the diet, it can result in bone loss and, possibly, osteoporosis. Adequate calcium and vitamin D as part of a healthful diet, along with physical activity, may reduce the risk of osteoporosis in later life.*

Vitamin D enhances both calcium absorption in the small intestine and calcium utilization in bone formation. Without sufficient vitamin D, bones can become thin, brittle, or misshapen. It also influences the utilization of phosphorus, another mineral that is important for the bone remodeling process.*

An essential nutrient that plays a key role in the bone remodeling process, magnesium helps in the development and maintenance of bones and teeth. Approximately 60–70 percent of the magnesium in the body is found in the skeleton, and higher intakes have been associated with higher levels of bone mineral density. Supplementing is especially important for middle-aged or older adults who are not receiving sufficient amounts of magnesium from their diet.*

THE USANA DIFFERENCE

MagneCal D Chewable combines two forms of highly absorbable, elemental calcium with additional bone-supporting ingredients in a chewable form. The ingredients complement each other to provide support for healthy bones.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Skeletal

Procosa

Unique joint-support supplement with vitamin C and the InCelligence Joint-Support Complex

USANA's Procosa supplement helps maintain and protect joint health with vitamin C and a unique InCelligence Joint-Support Complex made with vegetarian glucosamine and Meriva[®] bioavailable curcumin.*

THE BENEFITS OF PROCOSA

Healthy joints allow the bones to move together comfortably. However, in some individuals, the cartilage breaks down and becomes thin, resulting in more joint friction, discomfort, and stiffness.

In addition to a healthy diet and maintaining moderate physical activity, the unique blend of the InCelligence Joint-Support Complex (formulated with USANA InCelligence Technology), vitamin C, and other nutrients can help support optimal joint health and function, so you can maintain an active, independent lifestyle.*

THE SCIENCE OF PROCOSA

Between the bones is a narrow space—the joint cavity. Your bones are capped with cartilage, which gets its lubrication and nutrients from synovial fluid, which also acts like a shock absorber. If synovial fluid and cartilage deteriorate, the spacing between the bones narrows, and eventually the bones will rub together.

Research has shown that joint space can be better maintained in those who take glucosamine. Glucosamine also stimulates production of hyaluronic acid, which is responsible for the lubricating and shock-absorbing properties of synovial fluid.*

Glucosamine is a well-absorbed amino sugar that helps regulate normal cartilage formation by encouraging production of collagen and by acting as a building block for proteoglycans. Proteoglycans are essential for healthy cartilage because they bind the water that lubricates and cushions the joint.*

Meriva[®] is an innovative phytosome that combines curcumin with a phospholipid, so it passes through cell membranes more easily, making it nearly 30 times more bioavailable than traditional curcumin preparations.

Together, glucosamine and Meriva make up the InCelligence Joint-Support Complex. In addition to the benefits listed above, there are two key cell-signaling processes the complex is designed to promote:

- Exercise can stimulate the immune system and result in temporary inflammation, which is part of the body's natural recovery mechanism for restoring normal structure and function to muscles and tendons. The InCelligence Joint-Support Complex influences the signaling pathways that modulate these responses to help proactively promote a healthy immune and inflammatory response after exercise.*
- Chondrocytes (cartilage cells) maintain healthy function through a natural cell renewal process. However, age or other lifestyle factors may slow this process. The InCelligence Joint-Support Complex helps activate autophagy to renew healthy joint-cell function to preserve healthy articular cartilage and support healthy joint aging.*

Procosa also delivers 225 mg of vitamin C because it promotes collagen synthesis. Collagen is one of the main structural proteins that supports the integrity and strength of ligaments and tendons to maintain joint stability.*

THE USANA DIFFERENCE

The InCelligence Joint-Support Complex in Procosa was created using a unique combination of Meriva bioavailable curcumin with high-quality glucosamine hydrochloride. By blending the hydrochloride form of glucosamine with the potassium and magnesium sulfate in the formula, Procosa provides the same benefits of glucosamine sulfate without using shellfish or other animal-based ingredients. Not only is it one of the few vegetarian formulas available on the market, the addition of vitamin C makes Procosa a highly effective, comprehensive approach to joint health.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

*Meriva[®] is a trademark of Indena S.p.A.

Skeletal

Vitamin K2

A highly effective vitamin K supplement*

USANA's Vitamin K2 is an excellent source of the MK-7 strain of vitamin K2 for advanced cardiovascular function and bone support.*

THE BENEFITS OF VITAMIN K2

Vitamin K2 is a relatively recent discovery in the nutrition world, and it's already been shown to provide a lifetime of benefits in various clinical studies. K2 helps maintain healthy blood vessels, which promotes healthy circulation and blood pressure already in the normal range. This allows for the healthy flow of all nutrients in the blood stream to the organs that need them—including your hard-working heart.*

Vitamin K2 pairs especially well with calcium, an essential mineral necessary to maintain strong bones and carry out important functions within your body. Vitamin K2 has been shown to help maintain healthy calcium deposition and promote normal calcification in bones to assist the body's natural ability to rebuild solid, strong bones.*

THE SCIENCE OF VITAMIN K2

Vitamin K2 has nine related menaquinone (MK) compounds, with MK-4 and MK-7 regarded as the most nutritionally beneficial. The MK-7 strain featured in USANA's Vitamin K2 is the most likely to reach the bones and liver. Some MK-7 is even converted to MK-4 by the "good" bacteria in your body, giving you the benefits of both.

While vitamin K1 is produced by plants and found in many common vegetables, quality sources of K2 are more limited. Sources of vitamin K2 include fermented soybeans, or natto, and animal products such as goose liver, egg yolks, dark chicken meat, and certain cheeses. The typical Western diet contains insufficient amounts of vitamin K2, and dietary sources from plants have poor bioavailability. Since vitamin K2 is fat-soluble, supplementing may be an effective way to get your desired dose.

THE USANA DIFFERENCE

When you take USANA Vitamin K2, you can be confident you're getting the best form of vitamin K. One tablet provides 150 percent of the daily recommended value (DV) of vitamin K in the form of fat-soluble MK-7, or menaquinone. MK-7 is chosen for its longevity, as it stays in the body longer than MK-4, the other form of vitamin K2 often found in supplements.

USANA Vitamin K2 goes beyond bone health to help preserve healthy cardiovascular function by supporting your body's natural ability to keep your heart and blood vessels healthy and flexible. If maintaining good circulation is at the heart of your healthy lifestyle, USANA Vitamin K2 is a great addition to your supplement routine for a lifetime of healthy living.*

USANA EstroPro is a gentle option for women experiencing symptoms associated with menopausal transition.

Women in menopause experience a natural reduction of estrogen, shifting their body's state of health. As women age, it's important they maintain cardiovascular health, support energy levels, and nurture their skin. Powerful supplements can deliver extra vitality to live every day to its fullest.*

THE BENEFITS OF ESTROPRO

Women 40 and older may begin to experience uncomfortable symptoms as their production of estrogen and progesterone begins to slow. EstroPro contains naturally derived ingredients to help create balance in the body. Plant-based compounds offer an estrogenic effect to support the natural fluctuation of hormones during menopausal transition, as well as aid in cardiovascular and bone health.*

Some authorities theorize that high levels of soy isoflavones in Asian diets contribute to Asian women transitioning through menopause more easily than those women living in Western cultures. Soy isoflavones are biologically active chemical compounds from plants such as grains, legumes, fruits, and vegetables that bind to the same estrogen receptor sites and behave similarly to human estrogen.

THE SCIENCE OF ESTROPRO

Taken daily, USANA EstroPro helps women embrace changes in hormones to support an active lifestyle. During menopause, as levels of estrogen and progesterone drop, the soy isoflavones and other compounds found in EstroPro act as phytoestrogens in the body. Combined, these ingredients provide broad support for greater balance and ease of symptoms associated with fluctuating hormones during menopause.*

Soy isoflavones are a source of phytoestrogens, plant-based compounds with an estrogenic effect to help with common menopausal symptoms.*

Red clover also provides a source of phytoestrogens to help offset the body's response to normal hormone changes associated with menopausal transition.*

Flaxseed extract contains antioxidants, lignans, and omega-3s to help support bone density and cardiovascular function.*

Licorice root extract contains flavonoids, saponins, and other beneficial compounds to support healthy hormone function while it helps maintain neural activities to support mood.*

THE USANA DIFFERENCE

EstroPro provides a unique blend of phytoestrogens from four different naturally derived sources. Created by USANA scientists, a two-tablet dose of EstroPro provides 48 milligrams (mg) of soy and red clover isoflavones, 105 mg of flaxseed, and 60 mg of licorice, daily. This combination of trusted ingredients offers a gentle option for health-conscious women who are experiencing the inconvenient symptoms associated with menopausal transition, such as hot flashes, night sweats, changes in skin and hair, mood swings, and occasional sleeplessness. Taken daily, it also works to support optimal bone and cardiovascular health. Ease the experience of common symptoms of menopause and support your best years with safe, targeted support from EstroPro.*

Endocrine

Palmetto Plus

Supports prostate health

Palmetto Plus is a science-based supplement for men that supports prostate health.

THE BENEFITS OF PALMETTO PLUS

Palmetto Plus is a combination of saw palmetto, lycopene, and soy isoflavones, which have been shown to assist in retaining prostate health.*

Maintaining prostate health should be a priority for all men. A healthy diet and exercise, coupled with targeted, standardized botanical extracts, such as those found in Palmetto Plus, may help support prostate health.*

THE SCIENCE OF PALMETTO PLUS

Palmetto Plus is a comprehensive formula that, over time, may provide support for prostate health. Considerable clinical research has shown that a significant percentage of men using saw palmetto show a positive correlation between saw palmetto and prostate health.*

Lycopene is the most abundant carotenoid (vitamin-like compound) found in the prostate and may play a role in supporting a healthy prostate by supporting a balanced immune function and providing antioxidant protection.*

Soy isoflavones, a group of phytochemicals found in soybeans, have been shown to help maintain health functions throughout the body.*

THE USANA DIFFERENCE

USANA is one of only a few major manufacturers to combine saw palmetto with lycopene and soy isoflavones in a single product. Palmetto Plus is a convenient, effective way to obtain a comprehensive men's health formulation at a reasonable price.*

Mood & Relaxation

A new perspective of supportive products addressing occasional stress, mental and emotional well-being, and rest support.

Stress Relief

Mood support supplement

Mood support supplement for maintaining balanced emotional response and resilience.*

THE SCIENCE BEHIND STRESS RELIEF

A daily mood-support supplement designed to nurture a healthy emotional response and resilience. It contains highly researched herbal ingredients—ashwagandha, saffron, and lemon balm—known for their use in many traditional products and regarded for their scientifically supported emotional and mental effects. This dynamic formula supports the GABA receptors in the brain that help to regulate your mood.*

THE BENEFITS OF STRESS RELIEF

Ashwagandha: An Ayurvedic herb well known for its adaptogenic properties, which can help the body adapt to feelings of mild and occasional stress and nervousness.*

Saffron: A spice used to promote calming through its action on the GABA(A)-benzodiazepine receptors in the brain and the CREB cell-signaling protein, which helps maintain a balanced mood.*

Lemon balm: Like saffron, lemon balm has a long history of use for its calming properties.*

THE USANA DIFFERENCE

Support your emotional and mental well-being with Stress Relief, USANA's daily mood-support supplement. This dynamic formula contains extensively researched herbal ingredients—ashwagandha, saffron, and lemon balm—known for their use in many traditional remedies and highly regarded for their scientifically supported emotional and mental effects.*

Calm Response

Essential oil balm

Topical aromatic essential oil balm to promote calm feelings and a centered disposition.

THE SCIENCE BEHIND CALM RESPONSE

A potent, topical balm formulated from a unique blend of high-quality, pure essential oils to promote calm feelings and a centered disposition. And our convenient, easy-to-apply skin stick provides a sense of well-being, wherever you may be.

THE BENEFITS OF CALM RESPONSE

Lavender: Well known for its relaxing properties, used to promote restfulness.

Ylang Ylang: Pleasant, floral aroma known to promote calm feelings.

Patchouli: Spicy, earthy scent often used to feel grounded and secure.

Ho Wood: Firm, woody aromatic often associated with fortitude.

Bergamot: Light, citrusy scent used to create an uplifting environment.

THE USANA DIFFERENCE

Create an aromatic, calming environment to provide a sense of well-being with Calm Response. This high-quality balm uniquely blends essential oils known to support a calm, collected, and resilient emotional state. Calm Response comes in a convenient 15 mL application stick for ease of use and portability. For topical use only.

In addition to Stress Relief and Calm Response, Mineral Clam (a fizzy magnesium drink) and Pure Rest (our ultrapure melatonin supplement) help to promote mental and emotional wellness by naturally regulating your sleep and wake cycles.*

ITEM #198

Mineral Calm

Magnesium drink mix

Turn your occasional restless nights into restful ones.

THE SCIENCE BEHIND MINERAL CALM

Mineral Calm is a powdered drink mix formulated to be dissolved in hot water for an effervescent, herbal, citrus drink to promote a state of mental calmness and support a normal, relaxed state for muscles. Magnesium serves as the single active ingredient to support GABA receptors in your brain to optimize nerve activity and healthy physical relaxation.*

Taken before bed, Mineral Calm can help support healthy sleep. And because magnesium promotes healthy muscle function, Mineral Calm can support normal muscle recovery after exercise.*

THE BENEFITS OF MINERAL CLAM

Establishing good sleeping habits starts with your bedtime routine. Simple tips to get ready for bed can include switching off your electronic devices, meditating, and reading. A hot, fizzy cup of Mineral Calm delivers a concentrated amount of magnesium to bring a sense of serenity and help support a healthy, relaxed mental state.*

THE USANA DIFFERENCE

It may be number 12 on the periodic table, but magnesium is first for overall good health. This powerful alkaline metal is important for many processes in the body, including supporting healthy nerve function and maintaining healthy blood sugar levels already in their normal range. Mineral Calm provides the perfect level of magnesium to address muscle tension and calm nerves during rest and recovery.*

Mineral Calm provides your body with nutritional support for calming anxious thoughts and supporting healthy muscle response. This inviting warm beverage draws upon the comforting flavors of lemon and ginger to serve as a perfect addition to your bedtime routine.*

ITEM #148

Directions: Add one (1) rounded teaspoon (5 g) of powder to 3 oz. of hot water and fully effervesce. Then, add 3–5 oz. more of hot water and blend until powder is mixed thoroughly. Serve hot 30–60 minutes before bedtime.

Supplement Facts

Serving Size: 1 rounded teaspoon (5 g)
Servings Per Container: 56

Amount Per Serving		%DV
Magnesium (as Magnesium Carbonate)	300 mg	71%
Sodium (as Sodium Bicarbonate)	100 mg	4%
Potassium (as Potassium Bicarbonate) 8	0 mg 2	%
Daily Value (DV).		

Other Ingredients: Citric Acid, Stevia, Salt, Maltodextrin, Gum Arabic, Natural Flavors. Keep out of reach of children. Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition. There is a safety seal under the cap. Do not use if the seal is broken or missing.

Store below 25 °C.

Pure Rest

Melatonin supplement

Pure Rest is a fast-acting melatonin supplement that supports the body's natural sleep and wake cycles.

THE BENEFITS OF PURE REST

USANA's Pure Rest is a non-habit forming supplement that supports the natural increase of melatonin production at night. When taken at bedtime, Pure Rest supports the body's natural circadian rhythms and helps promote sleep, which restores the body after daily exposure to free radicals and general wear and tear.*

Pure Rest promotes sleep, and sleep plays a significant role in keeping the immune system functioning normally while stimulating tissue repair, muscle growth, and protein synthesis.*

Sleep deprivation can have serious mental and physical consequences, resulting in poor concentration, impaired coordination, blurred vision, compromised immune function, and an increased risk of morbidity and mortality.

THE SCIENCE OF PURE REST

Pure Rest contains 2 mg of melatonin in a dissolvable, orange-flavored tablet.

Melatonin is a naturally occurring hormone synthesized in the brain that regulates normal sleep and wake cycles. Melatonin levels naturally start to rise in the evening and remain elevated for most of the night, signaling to our body that it is time to sleep. As melatonin levels rise, we become less alert, feel drowsy, and eventually fall asleep. Evidence shows that getting enough quality sleep will not only help people feel energized and productive, but will also increase their odds of living healthier lives.

Those who sleep, on average, less than six hours per night have been shown to be much more likely to be obese and develop abnormal blood glucose levels (a precursor to type 2 diabetes) than those who average seven to eight hours a night. Women who do not get at least six hours of sleep a night are also more likely to have high blood pressure, which could lead to cardiovascular disease over time.

THE USANA DIFFERENCE

USANA's ultra-pure, fast-acting Pure Rest supplement is manufactured to the same high standards and carries the same potency guarantee as all tabulated products, so you can feel confident that it is safe and effective. Pure Rest is not a sleeping pill and is not habit forming. Additionally, it is sugar free and contains no animal ingredients.

Because individual needs vary, USANA scores the tablets so they can easily be broken in half to adjust the dosage as necessary.

ITEM #141

Directions: Adults take ½ to 2 dissolvable tablets as needed one hour before bedtime for relief of occasional sleeplessness.

Supplement Facts		
Serving Size: 1 Tablet		
Servings Per Container: 56		
Amount Per Serving		%DV
Melatonin	2 mg	†
†Daily value (DV) not established		

Other Ingredients: Xylitol, Natural Orange Flavor, Ascorbyl Palmitate, Silicon Dioxide.

Digestion/Detox

USANA's line of Sanoviv Inspired Digestion/Detox products were made to work together to support your digestive health based on the results and recommendations of USANA's collaboration with the medical professionals at Sanoviv Medical Institute.

Digestive

USANA Digestive Enzyme

Enzyme-containing digestive support supplement

The USANA Digestive Enzyme supplement supplies enzymes to help you digest your meals more efficiently and alleviate the sense of fullness after a large meal or bloating associated with digestion. Now with added artichoke extract, this unique formula also helps provide relief from occasional digestive issues.*

THE BENEFITS OF DIGESTIVE ENZYME

Our body naturally produces enzymes to digest the foods we eat, but certain factors, including age or food sensitivities, may reduce our ability to digest foods efficiently. This can lead to stomach upset. Eating large meals can also cause mild indigestion.

Although eating a varied, healthy diet usually provides us with some enzymes to supplement those naturally made by the body, many of us don't eat the way we should. And without a sufficient amount of functioning enzymes in our body, good digestive health may be impaired, which can lead to indigestion as well as a reduction in the amount of nutrients we are able to absorb from our foods.

USANA's Digestive Enzyme is a digestive aid that supplies supplemental enzymes to help break down the foods we eat so the body receives the nutrients it needs to function properly. The added artichoke extract further helps support healthy digestion.*

THE SCIENCE OF DIGESTIVE ENZYME

Enzymes play an important role in human health. Many researchers over the last century have maintained that a loss of digestive enzymes may be a significant contributing factor to poor health as we age. This is likely partially because our food is not being broken down and we do not receive all the nourishment we need from what we eat.

Digestive Enzyme helps aid digestion by augmenting the enzymes our pancreas naturally excretes with a wide range of the enzymes that help break down the food we eat:

- Alpha-amylase supports the digestion of starch.
- Bromelain, protease, and papain support the digestion of protein, the absorption of which is important to maintaining muscle health.*
- Lactase assists in the digestion of foods containing lactose (e.g., milk) and may help with mild symptoms of gas, bloating, and cramping, especially after a large meal.*
- Lipase supports the breakdown of fats.*
- Cellulase supports the digestion of cellulose, which usually comes from plant materials.*

Artichoke extract has been shown to be effective in relieving digestive complaints, such as mild stomach upset, by aiding the digestion of fatty foods, especially after a large meal.*

THE USANA DIFFERENCE

Supplementing with Digestive Enzyme increases enzyme levels for optimal digestive efficiency. It is designed to support more complete digestion and absorption of macronutrients. The addition of artichoke extract makes USANA's formula unique in the supplement industry.*

ITEM #111

Directions: Take one (1) to three (3) tablets with a meal or as needed.

Supplement Facts

Serving Size: 1 Tablet
Servings Per Container: 56

Amount Per Serving	%DV
Natural Enzyme Blend (Alpha-Amylase, Bromelain, Protease, Lipase, Lactase, Papain, Cellulase)	120 mg †
Artichoke Extract (<i>Cynara scolymus</i> L.)	25 mg †

Digestive

USANA Probiotic

Probiotic food supplement for digestive and immune health*

USANA Probiotic food supplement supports digestive health with a unique blend of probiotics that brings balance to your belly.

THE BENEFITS OF USANA PROBIOTIC

Everything you ingest must go through your digestive system, which, in turn, provides all the micro- and macronutrients your body's cells need to function properly. Because the digestive system is responsible for breaking down and absorbing the vitamins and minerals from food and nutritional supplements, maintaining digestive health is an important factor in optimizing nutrient intake.*

Not only does a healthy digestive system greatly reduce the likelihood of physical discomfort from gas, constipation, bloating, or occasional diarrhea, it also facilitates consistent waste elimination from the body through the regular passing of stool and normalization of stool consistency.*

To keep everything working smoothly, it is vital that you drink plenty of water; exercise; and consume a proper diet with plenty of fiber from fruits, vegetables, and whole grains. In addition to eating a healthful diet, using probiotics can help create an ideal environment for healthy digestion.*

THE SCIENCE OF USANA PROBIOTIC

Your gut is host to both beneficial and potentially harmful bacteria. These bacteria, also known as microflora, may aid healthy digestion. Age, stress, illness, antibiotics and/or certain medicines, poor diet and hydration, lack of rest, and harmful environmental conditions may endanger the fine balance that is needed to support the normal intestinal flora. This imbalance can result in the reduction of beneficial bacteria in the gut, which can lead to digestive concerns that may not only be physically uncomfortable but also possibly harmful to your health.

The Food and Agriculture Organization of the United Nations defines probiotics as live microorganisms that, when administered in adequate amounts, confer a health benefit on the host. Probiotic dietary supplements replenish beneficial microflora, which can help support a proper microbial equilibrium in the gut and aid good digestion. USANA Probiotic features a unique 50/50 mixture of Bifidobacterium BB-12®† and Lactobacillus rhamnosus LGG®†—two strains of probiotic bacteria that can promote a natural balance of beneficial microflora in the gut.*

Research suggests that probiotics, including Bifidobacterium BB-12 and Lactobacillus rhamnosus LGG, may also play a role in sustaining healthy immune function. More immune cells are concentrated in the gut than in any other region of the body. These probiotics encourage the healthy bacterial growth to help support proper nutrient absorption.*

THE USANA DIFFERENCE

The beneficial effects of one strain of probiotics do not necessarily hold true for others, or even for different varieties of the same species or strain. A sufficient quantity of high-quality bacteria strains must survive stomach enzymes and enter the intestinal tract alive to be effective. Verified to supply 12 billion Colony Forming Units (CFU) of viable bacteria—a level shown to be effective in clinical studies—USANA Probiotic contains Bifidobacterium BB-12 and Lactobacillus rhamnosus LGG, two strains well-documented to survive transit through the harsh, acidic environment of the stomach to colonize the intestines.*

USANA Probiotic employs an advanced delivery system that guarantees the product will remain effective for at least 18 months when stored at room temperature. Refrigeration may prolong shelf life even further. It is also easy to use. Simply take USANA Probiotic alone or add one serving (one stick pack) of the mildly sweet, powdered formulation to cold beverages or foods every one or two days for proven digestive health results.*

ITEM #108

Directions for Use: Adults, add the contents of one stick pack to your favorite cold food or beverage and consume immediately. Take one stick pack every 1–2 days, or as needed to promote digestive health.*

Supplement Facts

Serving Size: 1 Stick Pack

Hepasil DTX

Comprehensive liver-support formula featuring the InCelligence™ Detox-Support Complex

A healthy lifestyle coupled with a supplement such as USANA's Hepasil DTX with the unique InCelligence Detox-Support Complex is a great way to maintain healthy liver function and balance the body's natural detoxification processes.*

THE BENEFITS OF HEPASIL DTX

Your liver performs a number of functions vital to maintaining good health, including filtering virtually everything that goes into your blood stream. Almost every nutrient you put into your mouth—from food, drinks, medications, and supplements—goes through your liver, where it is broken down into a form that can be used by your body or be filtered out and eliminated.*

Enhanced with InCelligence Technology, Hepasil DTX supports healthy liver function in many ways, including supplying the body with nutrients that promote the natural detoxification process as well as endogenous antioxidant activity.*

THE SCIENCE BEHIND HEPASIL DTX

A key ingredient in Hepasil DTX, choline helps the liver metabolize fats and cholesterol and move them out of the liver. Upon entry into the cell, choline is oxidized to become betaine, which plays a role in donating methyl groups necessary for detoxification reactions.

The liver uses biotin to support metabolism of macronutrients and the synthesis of glycogen for energy.

In addition to alpha-lipoic acid and n-acetyl l-cysteine, the InCelligence Detox-Support Complex in Hepasil DTX also delivers a comprehensive array of phytochemicals, including green-tea extract, milk-thistle extract, broccoli concentrate, and USANA's Olivol®. These powerful nutrients target a cell-signaling pathway that supports naturally protective processes within a healthy liver:

- Balancing detoxification reactions by stimulating the production of Phase II detoxification enzymes, including glutathione-S-transferases, these enzymes link with the highly reactive intermediary metabolites generated in the liver during Phase I and convert them into a form that can be excreted from the body.
- Defending against oxidative stress caused by free radicals generated during Phase I by acting as direct antioxidants and also activating the production of the body's endogenous antioxidants, including glutathione, which is most concentrated in the liver.

Taking three tablets of Hepasil DTX a day for 28 days can help significantly increase natural glutathione production and overall antioxidant capacity. In fact, the formula is patent pending because of the increase in glutathione, vitamin C antioxidant capacity, and detoxification activity it helps produce within the body.*

THE USANA DIFFERENCE

Hepasil DTX safely combines previously incompatible but equally important nutrients into one bi-layer tablet using USANA's Nutritional Hybrid Technology. This technology enables USANA to manufacture a truly unique, comprehensive liver-support supplement. The InCelligence Detox-Support Complex unlocks the innate intelligence of your body's natural processes to help support the longevity of your liver cells and protect your health from an increasingly toxic world.*

Diet/Energy

USANA believes in making superior products to meet all your individual health needs. Which is why we've developed all sorts of nutritious shakes for when your busy lifestyle needs a nudge in a...healthier direction.

USANA MySMART Protein Shake Bases

A high-protein foundation for your MySmart shake

USANA MySmart shake is a convenient way to customize your diet, and Protein Bases are where your MySmart shake begins. Choose a whey protein or a soy protein for your unique health needs.

Whichever base you choose, you'll receive high-quality, complete protein with no added sugars. These options are also an excellent source of dietary fiber to help you feel fuller, longer. They include a small amount of saturated fat from coconut oil, which is a beneficial fat. You'll receive the benefits of medium-chain triglycerides (MCTs) from coconut oil, which are beneficial fatty acids.*

For those with additional dietary concerns, these products are not genetically engineered, contain clean ingredients, have a low glycemic impact, and are gluten free.† Each base has a light vanilla flavor, but feel free to blend in fresh fruits to make your shake taste just the way you like it.

USANA MySMART Protein Fibergy Plus

Nutritious fiber blend

Fibergy Plus is a convenient, naturally low-glycemic way to add more fiber to your diet.

THE BENEFITS OF FIBERGY PLUS

Consuming multiple sources of dietary fiber is important, because different types of fiber provide specific benefits and serve unique purposes within the body. The dietary fiber in Fibergy Plus promotes good digestive health, is important to the maintenance of heart health, and aids in normal bowel regularity, which helps move wastes and toxins out of the colon quickly and efficiently. It can also help regulate food intake because it can help keep you feeling full longer after a meal.* The FDA states that diets rich in fiber-containing grain products, fruits, and vegetables may reduce the risk of some types of cancer, a disease associated with many factors. As a result, diets high in soluble and insoluble fiber are important for not only digestive health, but overall health as well.

THE SCIENCE OF FIBERGY PLUS

In addition to cellulose, the unique blend of Fibergy Plus contains two important sources of fiber: inulin and psyllium. Psyllium is a bulking agent that sweeps the gastrointestinal tract and normalizes stool consistency to promote regularity. This activity is crucial for health, because if undigested food material and metabolic waste build up due to slow elimination, they may contribute to health problems in the future.*

When combined with a diet low in saturated fat, soluble fiber can help maintain healthy triglyceride, blood pressure, and cholesterol levels already in the normal range. Additionally, soluble fiber from foods such as Fibergy Plus, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. A serving of Fibergy Plus supplies the 2.9 grams of the soluble fiber from psyllium necessary per day to have this effect.*

Psyllium fiber can be helpful for those trying to lose weight. Because it is a bulking agent that helps food digest more slowly, consuming psyllium with a meal that includes protein may reduce food consumption later in the day, as it enhances satiety.*

Inulin serves as a prebiotic, a non-digestible food ingredient that promotes the growth of healthy bifidobacteria in the digestive tract. Healthy bacteria are desirable in the gut as they assist the digestive tract's ability to absorb nutrients and break down foods.*

THE USANA DIFFERENCE

Fibergy Plus is cholesterol free, fat free, and low in sodium. And just one serving of Fibergy Plus accounts for almost half of the daily recommended value of dietary fiber.

The formula was also designed without added flavors, making it convenient to mix with any juice or flavored beverage of your choice. Adding Fibergy Plus to your USANA MySmart shake can make it easier to skip unhealthy snacks throughout the day, as the high fiber content combined with the low-glycemic shake leaves you feeling satisfied longer.*

Pairing Fibergy Plus with USANA® Probiotic is a beneficial combination as well. USANA® Probiotic supplies healthy bifidobacteria and works in a symbiotic relationship with inulin found in Fibergy Plus to support healthy digestion by supporting the growth of healthy bacteria in the gut.*

ITEM #226

Mix 1 tablespoon of USANA MySmart Booster to your USANA MySmart Protein Base for an additional 12 grams of high-quality fiber. Add more water for desired consistency.

Nutrimeal

A perfectly nutritious meal replacement shake

THE BENEFITS OF FIBER AND PROTEIN

There's a reason fiber plays such a critical part in the diet. Foods high in soluble and insoluble fiber are important for maintaining digestive health. When regularly eaten as part of a diet low in saturated fat and cholesterol, soluble fiber is shown to help support healthy cholesterol levels that are already at a normal range, provided they are healthy to begin with.

Protein also plays an important part in a healthy diet. Soy protein is a complete protein, containing all of the essential amino acids in a highly digestible form. Whey protein, which is also easily digestible, is also an excellent source of amino acids essential for building a healthy body.

A serving of Dutch Chocolate or Wild Strawberry Nutrimeal provides 15 grams of soy, whey, and pea protein. French Vanilla Nutrimeal provides 15 grams of soy protein per serving.

DUTCH CHOCOLATE

The protein blend in Dutch Chocolate Nutrimeal provides the benefits of soy and whey, plus additional protein sources, such as pea protein isolate and rice protein concentrate, to provide a broad range of amino acids to the body. This flavor also contains ingredients known for their fiber content. It is perfect for those who are avoiding gluten.*

FRENCH VANILLA

Our French Vanilla Nutrimeal meal replacement is formulated with 100 percent soy protein for those who prefer plant-based proteins or who are lactose or gluten intolerant. Soy protein is a complete source of all the essential amino acids that are required by the human body.

WILD STRAWBERRY NUTRIMEAL

A favorite flavor that's here to stay, Wild Strawberry Nutrimeal helps control hunger and curb cravings with our standard soy, whey, and pea protein blend providing 15 grams of protein per serving. This low-glycemic meal replacement is a berry good way to help your diet stay nutritious and balanced.

NUTRIMEAL FREE

You want food that's clean, pure, and above all, healthy. You may not want gluten, dairy, or soy†—but you still need something that will fill you up and give you the energy you need to take on the day.

That's why we created Nutrimeal Free. It's a meal replacement shake formulated with a complete vegetable protein, and it's unique for what it doesn't contain—no added fructose, gluten†, dairy, or soy†. It's packed with protein to give you sustained energy, and it has plenty of fiber to support healthy digestion. Oh, and did we mention it's vegetarian friendly?

This shake is an ideal source of nutrition for when you want to detox and cleanse, or if you need a simple, convenient meal replacement without an overpowering flavor.

†Nutrimeal Free has no added soy, dairy, egg, or wheat. Manufactured on equipment that processes products containing shellfish, wheat, milk, soy, egg, peanuts, and tree nuts.

Dutch Chocolate Nutrimeal

ITEM #210

DIRECTIONS: For a rich, creamy shake, combine 3 scoops with 10–12 ounces of cold water to taste. Thoroughly mix in a blender or BlenderBottle® for 45 seconds. It's perfect for replacing one or more meals a day!

Rev3 Energy Drink

A refreshing way to recharge your energy levels

Cleaner. Smarter. Stronger. Rev3 Energy Drink is all the power of an energy drink—refined. With an advanced formula developed by USANA's nutrition experts, Rev3 offers two superior alternatives to crash-and-burn energy drinks.

REV3 ENERGY DRINK

Rev3 contains L-carnitine, an ingredient that has an important function in energy production. L-carnitine helps shuttle fatty acids (fats) into the mitochondria where they can be turned into energy. Rev3 also contains coenzyme Q10, which is involved in the production of 95 percent of the energy required by the body.

A REVOLUTION IN ENERGY DRINKS

Rev3 is low glycemic and formulated to provide sustained energy. With a high glycemic load, typical energy drinks spike your blood sugar levels, giving you a quick feeling of energy but soon leading to a crash that leaves you feeling drained. Rev3 has a total glycemic load that is three to four times lower than traditional energy drinks. This means that Rev3 does not lead to a debilitating sugar crash but rather leaves you feeling a sustained level of energy throughout the day.*

PROPRIETARY ENERGY COMPLEX

Rev3 was developed with a complete and proprietary energy complex that includes L-carnitine, malic acid, citric acid, Korean ginseng, and rhodiola. These ingredients are broken down and eventually enter the Krebs cycle (citric acid cycle) and electron transport chain where they help refuel the body's energy stores.

THE USANA DIFFERENCE

Rev3 has a crisp, all-natural taste. Rev3 is unique among most common energy drinks because it has no artificial flavors, no artificial sweeteners, and no artificial colors. It contains naturally derived caffeine from a blend of teas for improved mental alertness and stamina. Rev3 also includes additional vitamins, minerals, and antioxidants that support energy metabolism at the cellular level.*

Rev3 Energy Surge Pack

All the power of Rev3 Energy in a convenient stick pack

Experience the energizing benefits of Rev3 in a convenient, ready-to-mix pack. The Rev3 Energy Surge Pack is perfect to take with you wherever you go. Simply mix with a bottle of water and enjoy this fresh, scientifically formulated alternative to the typical energy drink.

WHAT MAKES IT WORK?

Rev3 Energy Surge Pack contains a natural source of caffeine derived from the leaves of three different types of teas. With 80 mg of naturally derived caffeine, Rev3 Energy Surge Pack contains about as much caffeine as an average cup of coffee, but without many of the potentially undesirable ingredients, such as large amounts of sugar, excessive calories, or artificial preservatives.

THE ENERGY COMPLEX

Malic acid and citric acid are part of Rev3 Energy Surge Pack's complete energy complex. These ingredients are broken down and eventually enter the Krebs cycle (citric acid cycle) and electron transport chain where they help refuel the body's energy stores.

THE USANA DIFFERENCE

Rev3 Energy Surge Pack has no artificial flavors, no artificial sweeteners, no artificial preservatives, and no artificial colors. It contains naturally derived caffeine from a blend of teas to support mental alertness and stamina. Teas also provide numerous beneficial ingredients, including a thermogenic agent to aid in energy production, and antioxidants and phytonutrients known to be beneficial to health and metabolism.*

Diet/Energy

USANA WholeBio Microbiome Nutrition Bar

A delicious, convenient blend of probiotics and prebiotic fibers to balance digestive health

THE BENEFITS OF WHOLEBIO BAR

In a world of artificial sweeteners and flavor additives, our bodies need clean and wholesome foods more than ever. The USANA® WholeBio Bar is made with delicious, naturally based ingredients to provide your body with antioxidants and phytonutrients crucial to both digestive and general health.

Some of these naturally based ingredients include:

- Dates: Naturally sweet and a source of fiber to help regulate your healthy digestive process.
- Pea protein: Source of protein that doesn't cause bloating and can help you feel fuller, longer.
- Sunflower butter: Source of protein and vitamin E.
- Almonds: Source of healthy fats, manganese, magnesium, fiber, and protein.

When you combine the USANA WholeBio Bar's blend of prebiotic fibers, probiotics, and satisfying ingredients with a balanced diet and regular exercise, you get a snack that can play an important role in healthy weight management.

How, exactly? The answers are simple:

- The prebiotic fibers nourish beneficial bacteria in your gut. Having healthy gut bacteria has frequently been linked to healthy weight management.
- The probiotic strains support your gut health and may help your digestive system to better absorb satiety-supporting nutrients contained in the bar.
- Some of the ingredients provide fiber and protein, making the USANA WholeBio Bar a filling and delicious snack. One bar goes a long way.

THE SCIENCE OF WHOLEBIO BAR

The bacteria in your digestive system are key to your overall health. They determine how well you absorb vital nutrients, and even affect how hungry you feel and what foods you crave.

The USANA WholeBio Bar is packed with both probiotics and an exclusive blend of prebiotic fibers. The probiotics introduce beneficial bacteria to your gut and the prebiotic fibers help feed and nourish this new bacteria so they grow strong and capable to support your gut health.

Think of the probiotics as the seed and the prebiotic fibers as the water and sunlight that help the seed sprout and grow. The USANA WholeBio Bar contains both to help you support and nourish a vibrant and robust microflora in your digestive system.

THE USANA DIFFERENCE

Supermarket shelves are filled with nutrition bars and probiotic supplements. With so many options, how does the USANA WholeBio Bar stand out above the crowd? The answer is found in the bar's benefits:

- Probiotics encourage the health and diversity of your gut microflora
- Proprietary blend of prebiotic fibers—including apple, blueberry, and raspberry— support the beneficial bacteria already in your gut
- Nutrient-rich formula keeps you feeling fuller, longer
- Wholesome, naturally based, and easily recognizable ingredients
- Convenient to carry and perfect for on-the-go snacking
- Delicious, satisfying flavor

CELAVIVE®

go beyond what you see

Celavive

Founded on the science of beauty, and formulated with USANA InCelligence Technology, Celavive helps unlock your body's power to defy signs of visible aging. Featuring ingredients designed to support your skin's natural renewal processes, these high-performance skincare products deliver benefits that are unique to your individual beauty.

Celavive's Signaling Complex is made up of two bioactive peptides and two botanicals extracts. Combined, these ingredients work to counteract signs of chronological and lifestyle stress aging like fine lines and wrinkles.

Go beyond traditional skincare regimens to rejuvenate your youthful appearance with our new skincare system.

Step 1: Cleanse

CONDITIONING MAKEUP REMOVER (all skin types)

It's important to thoroughly remove any makeup or impurities from your skin before cleansing at the end of each day. This gentle, go-to formula effectively dissolves even the toughest long-wear or waterproof makeup while moisturizing your skin and preparing it for the next step in your regimen. Simply wipe away liner, lipstick, or eye makeup in one clean sweep, leaving your skin feeling soft and hydrated without an oily residue.

Item #330

Ingredients: Water/Eau, Dipropylene Glycol, PEG-7 Glyceryl Cocoate, PEG-15 Glyceryl Isostearate, Squalane, Mannitol, Xylitol, Citric Acid, Sodium Citrate, Fragrance/Parfum.

CREAMY FOAM CLEANSER

This creamy cleanser creates a rich lather that lifts away dirt and oil while gently exfoliating dull, dry skin. Enjoy exceptionally smooth, glowing skin that looks and feels noticeably younger. Created with our Olivol® Botanical Blend, comprised of fruit extracts that have been clinically shown to provide 24 hours of rich hydration after just one application.

Item #333

Ingredients: Water/Eau, Glycerin, Palmitic Acid, Lauric Acid, Potassium Hydroxide, Myristic Acid, Stearic Acid, Glycosyl Trehalose, Glycol Distearate, Citrullus Lanatus (Watermelon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Sapindus Trifoliatus Fruit Extract, Glycine Soja (Soybean) Seed Extract, Olea Europaea (Olive) Fruit Extract, Squalane, Glucosyl Ceramide, Sodium Lactate, Sodium PCA, Hydrolyzed Corn Starch, Dextrin, Tetrasodium EDTA, Hydrogenated Starch Hydrolysate, Butylene Glycol, Fragrance/Parfum.

GENTLE MILK CLEANSER

Gently remove dirt and impurities without stripping the skin of its natural moisture with this creamy, everyday cleanser. Enjoy 24 hours of rich hydration after just one use. Created with our Olivol® Botanical Blend, comprised of fruit extracts that have been clinically shown to provide 24 hours of rich hydration after just one application.

Item #332

Ingredients: Water/Eau, Butylene Glycol, Triethylhexanoin, Glycerin, Pentylene Glycol, Glyceryl Stearate SE, Stearic Acid, Polyglyceryl-10 Stearate, Diphenylsiloxy Phenyl Trimethicone, Citrullus Lanatus (Watermelon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Lactobacillus/Soybean Extract Ferment Filtrate, Glycine Soja (Soybean) Seed Extract, Olea Europaea (Olive) Fruit Extract, Squalane, Glucosyl Ceramide, Sodium Lactate, Sodium PCA, Hydrolyzed Corn Starch, Alpha-Glucan, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Fragrance/Parfum.

Step 2: Tone

PERFECTING TONER

An essential step to your daily regimen, this unique formula is the perfect way to maintain proper moisture levels, gently purify your complexion, and balance the pH levels of the skin. Using key nutrients and powerful peptides, this toner helps prepare your complexion to receive the maximum benefits of moisturizers and treatments that follow. Created with the Celavive® Cell-Signaling Complex, featuring USANA InCelligence Technology and the Olivol® Botanical Blend.

Item #331

Ingredients: Water/Eau, Butylene Glycol, Pentylene Glycol, Glycerin, Dextrin, Prunus Lannesiana Flower Extract, Ascorbic Acid, Malic Acid, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Palmitoyl Tripeptide-38, Hexapeptide-48 HCL, Citrullus Lanatus (Watermelon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Paeonia Albiflora Root Extract, Glycine Soja (Soybean) Seed Extract, Paeonia Suffruticosa Root Extract, Lilium Candidum Bulb Extract, Origanum Majorana Leaf Extract, Alpinia Speciosa Leaf Extract, Oenothera Biennis Seed Extract, Geranium Robertianum Extract, Olea Europaea (Olive) Fruit Extract, Hydrolyzed Hyaluronic Acid, Hydrolyzed Collagen, Acetyl Glucosamine, Acetyl Hydroxyproline, Glucosyl Ceramide, Alpha-Glucan, Sodium Lactate, Sodium PCA, Hydrolyzed Corn Starch, Xanthan Gum, Citric Acid, Sodium Citrate, Hydroxypropyl Cyclodextrin, PPG-6-Decyltetradeceth-30, Fragrance/Parfum.

Step 3: Revitalize

HYDRATING EYE ESSENCE

As a staple product in your routine, this lightweight yet ultra-hydrating formula features a combination of powerful peptides, avocado oil, apricot fruit extract, and ginkgo biloba extract to visibly lessen the appearance of dark circles, puffiness, and fine lines. Developed with a high concentration of active ingredients, it works to revitalize the look of the delicate skin around your eyes. Created with the Celavive® Cell-Signaling Complex, featuring USANA InCelligence Technology and the Olivol® Botanical Blend.

Item #340

Ingredients: Water/Eau, Dipropylene Glycol, Dimethicone, Cyclopentasiloxane, Polymethyl Methacrylate, Pentylene Glycol, Glycerin, Butylene Glycol, Albizia Julibrissin Bark Extract, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Pisum Sativum (Pea) Extract, Palmitoyl Tripeptide-38, Hexapeptide-48 HCL, Hexapeptide-33, Oligopeptide-6, Hexapeptide-9, Hydrolyzed Hibiscus Esculentus Extract, Rosa Canina Fruit Oil, Persea Gratissima (Avocado) Oil, Prunus Armeniaca (Apricot) Kernel Oil, Helianthus Annuus (Sunflower) Seed Oil, Ginkgo Biloba Leaf Extract, Glucosyl Hesperidin, Ceteth-10, Glycerylamidoethyl Methacrylate/ Stearyl Methacrylate Copolymer, Hydroxypropyl Cyclodextrin, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Potassium Hydroxide, Cyclodextrin, Natto Gum, Dextrin, Fragrance/Parfum.

VITALIZING SERUM

Reduce the appearance of fine lines and wrinkles, and the visual loss of elasticity to restore a healthy, youthful radiance to your skin. After just one application, skin is noticeably younger looking. Featuring botanicals from natural sources and powerful peptides, this breakthrough, water-based formulation supports your skin's natural beauty-preserving functions. Created with the Celavive® Cell-Signaling Complex, featuring USANA InCelligence Technology.

Item #339

Ingredients: Water/Eau, Butylene Glycol, Glycerin, Isopentylidol, PEG-40 Hydrogenated Castor Oil, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Ethoxydiglycol, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Palmitoyl Tripeptide-38, Hexapeptide-48 HCL, Hippophae Rhamnoides Oil, Vitis Vinifera (Grape) Vine Extract, Hydrolyzed Hibiscus Esculentus Extract, Pisum Sativum (Pea) Extract, Malpighia Punicifolia (Acerola) Fruit Extract, Lactobacillus/Grape Juice Ferment Filtrate, Vitis Vinifera (Grape) Leaf Extract, Melissa Officinalis Leaf Extract, Thymus Vulgaris (Thyme) Flower/Leaf Extract, Squalane, Ubiquinone, Tocopherol, Tocopheryl Acetate, Caprylyl Glycol, Lauryl PCA, Menthyl PCA, Carrageenan, Lecithin, Dextrin, Cyclodextrin, Hydroxypropyl Cyclodextrin, Citric Acid, Aminomethyl Propanediol, 1, 2-Hexanediol, Glycerylamidoethyl Methacrylate/ Stearyl Methacrylate Copolymer, Fragrance/Parfum.

EXFOLIATING SCRUB + MASK

Dual-action, scrubbing formula gently exfoliates with pollution-fighting charcoal to help remove stubborn impurities, visibly promote better skin tone, reduce the appearance of pores, and lessen visible signs of aging.

Item #341

Ingredients: Water/Eau, Butylene Glycol, Glycerin, Sea Silt/Limon Marine, Glucomannan, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Pentylene Glycol, Charcoal Powder, Olea Europaea (Olive) Fruit Extract, Citrullus Lanatus (Watermelon) Fruit Extract, Lens Esculentus (Lentil) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Japonica Flower Extract, Squalane, Polysorbate 60, Saccharide Isomerate, Propanediol, Hydrolyzed Corn Starch, Sodium Lactate, Sodium PCA, Fragrance/Parfum.

HYDRATING + LIFTING SHEET MASK

This powerful, nourishing beauty treatment noticeably lifts and smooths the look of your skin while providing it with intense hydration. For a visibly tighter and brighter complexion, enhance your skin in just one 20-minute application. Apply after cleansing and toning your face. Follow with Celavive serums and moisturizers.

Item #342

Ingredients: Water (Aqua/Eau), Glycerin, Butylene Glycol, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Hexapeptide-48 HCL, Palmitoyl Tripeptide-38, Ascorbyl Tetrahydroxy Succinate, Epilobium Angustifolium Flower/Leaf/Stem Extract, Portulaca Oleracea Extract, Zanthoxylum Piperitum Fruit Extract, Illicium Verum (Anise) Fruit Extract, Citrus Paradisi (Grapefruit) Fruit Extract, Scutellaria Baicalensis Root Extract, Lonicera Japonica (Honeysuckle) Flower Extract, Sodium Hyaluronate, Pullulan, Carbomer, Cyclopentasiloxane, Cellulose Gum, PolySorbate 80, Xanthan Gum, Hydroxypropyl Cyclodextrin, Cyclohexasiloxane, 1,2-Hexanediol, Methylpropanediol, Linalool, Sodium Hydroxide, Disodium EDTA, Fragrance (Parfum).

Step 4: Hydrate

PROTECTIVE DAY LOTION

Begin each day beautifully by protecting your skin from the leading cause of premature skin aging. This lightweight lotion protects and hydrates for healthy-looking skin. Created with our Olivol® Botanical Blend, comprised of fruit extracts that have been clinically shown to provide 24 hours of rich hydration after just one application.

Item #334

Ingredients: Water/Eau, Butylene Glycol, Homosalate, Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Octocrylene, Isopropyl Lauroyl Sarcosinate, Pentylene Glycol, Mica, Ethylhexyl Palmitate, Cetearyl Alcohol, Dimethicone, Polysorbate 60, Ocimum Basilicum Hairy Root Culture Extract, Glycine Soja (Soybean) Seed Extract, Olea Europaea (Olive) Fruit Extract, Citrullus Lanatus (Watermelon) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Acanthopanax Senticosus (Eleuthero) Root Extract, Panax Ginseng Root Extract, Panax Quinquifolius Root Extract, Glycine Soja (Soybean) Protein, Butyrospermum Parkii (Shea) Butter, Rosa Multiflora Fruit Extract, Ceramide NP, Sodium PCA, Glycerin, Sodium Lactate, Ceteth-10 Phosphate, Dicaprylate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Carbomer, Silica, Hydrolyzed Corn Starch, Citric Acid, Potassium.

PROTECTIVE DAY CREAM

Defend against the leading cause of premature skin aging with this ultra-hydrating cream designed to protect your skin while offering intense moisture for a healthy-looking complexion. Created with our Olivol® Botanical Blend, comprised of fruit extracts that have been clinically shown to provide 24 hours of rich hydration after just one application.

Item #335

Ingredients: Water/Eau, Butylene Glycol, Homosalate, Ethylhexyl Methoxycinnamate, Tribehnenin Peg-20 Esters, Pentylene Glycol, Isopropyl Lauroyl Sarcosinate, Butyl Methoxydibenzoylmethane, Octocrylene, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Isodecyl Neopentanoate, Cyclopentasiloxane, Ocimum Basilicum Hairy Root Culture Extract, Citrullus Lanatus (Watermelon) Fruit Extract, Olea Europaea (Olive) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Glycine Soja (Soybean) Seed Extract, Acanthopanax Senticosus (Eleuthero) Root Extract, Panax Ginseng Root Extract, Panax Quinquifolius Root Extract, Glycine Soja (Soybean) Protein, Butyrospermum Parkii (Shea) Butter, Ceramide NP, Rosa Multiflora Fruit Extract, Potassium Hydroxide, Sodium Lactate, Salicornia Herbacea Extract, Hydrolyzed Corn Starch, Sodium PCA, Diisopropyl Sebacate, Lauryl Lactate, Caprylic/Capric Triglyceride, Glycerin, Methyl Methacrylate Crosspolymer, Citric Acid, Fragrance/Parfum.

REPLENISHING NIGHT GEL

This lightweight gel formula enriches your skin with botanicals from natural sources and powerful peptides to moisturize and revitalize the look of skin overnight for long-lasting, visible improvements in your skin's natural radiance. Created with the Celavive® Cell-Signaling Complex, featuring USANA InCelligence Technology and the Olivol® Botanical Blend.

Item #336

Ingredients: Water/Eau, Butylene Glycol, Cetyl Ethylhexanoate, Pentylene Glycol, Dimethicone, Glycerin, PEG-20 Sorbitan Cocoate, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Macadamia Ternifolia Seed Oil, Citrullus Lanatus (Watermelon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Glycine Soja (Soybean) Seed Extract, Gardenia Florida Fruit Extract, Olea Europaea (Olive) Fruit Extract, Hexapeptide-48 HCL, Palmitoyl Tripeptide-38, Palmitoyl Tripeptide-5, Glucosyl Ceramide, Dextrin, Sodium Lactate, Sodium PCA, Carbomer, Hydroxypropyl Cyclodextrin, Hydrolyzed Corn Starch, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Potassium Hydroxide, Fragrance/Parfum.

REPLENISHING NIGHT CREAM

This rich cream promotes hydrated, radiant skin with a luxurious blend of botanicals from natural sources and powerful peptides designed to fight the appearance of wrinkles and restore the youthful look of your complexion overnight. Created with the Celavive® Complex, featuring InCelligence Technology and the Olivol® Botanical Blend.

Item #337

Ingredients: Water/Eau, Glycerin, Propanediol, Macadamia Ternifolia Seed Oil, Stearic Acid, Pentylene Glycol, Squalane, Triethylhexanoin, Cetearyl Glucoside, Jojoba Esters, Dimethicone, Butylene Glycol, Artemisia Abrotanum Extract, Coffea Arabica (Coffee) Seed Extract, Hexapeptide-48 HCL, Palmitoyl Tripeptide-38, Palmitoyl Tripeptide-5, Citrullus Lanatus (Watermelon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Pearl Powder, Glycine Soja (Soybean) Seed Extract, Olea Europaea (Olive) Fruit Extract, Glucosyl Ceramide, Sodium Lactate, Sodium PCA, Hydrolyzed Corn Starch, Alpha-Glucan, Hydroxypropyl Cyclodextrin, Xanthan Gum, Dipentaerythritol Tri-Polyhydroxystearate, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Tocopherol, Fragrance/Parfum.

Celavive® Brightening Series

Celavive Brightening is formulated to illuminate your natural glow and give you a radiant, even-looking complexion. Build on your Celavive regimen for visibly brighter, more even skin with products designed for luminous results.

Each product contains its own unique blend of powerful brightening ingredients to address the appearance of hyperpigmentation and discoloration and correct the appearance of dark spots.

Enhance

DARK SPOT CORRECTOR

Target unwanted discoloration to visibly brighten and balance your skin with a uniquely precise applicator to help correct the look of hyperpigmentation.

Item #343

Ingredients: Water/Eau, 1,3-Butylene glycol, Hydrogenated Polydecene, Tocopherol, Glycerin, Triethylhexanoin, Pentylene Glycol, Polyglyceryl-10 Stearate, Ascorbyl Tetraisopalmitate, Dimethicone, Aspergillus Ferment, Hydrogenated Rapeseed Alcohol, Behenyl Alcohol, Sodium Polyacrylate, Glyceryl Stearate, Niacinamide, Citric Acid, Ethylhexyl Palmitate, Potassium Hydroxide.

LIGHT COMPLEXION SERUM

Refine the look of your overall complexion with concentrated ingredients to visibly correct the appearance of discoloration and hyperpigmentation.

Item #309

Ingredients: Water/Eau, Butylene Glycol, Diphenylsiloxy Phenyl Trimethicone, Glycerin, Pentylene Glycol, Polyglyceryl-10 Stearate, Pentaerythrityl Tetraethylhexanoate, Diglycerin, Niacinamide, Isostearyl Glyceryl Ether, Angelica Acutiloba Root Extract, Glycosyl Trehalose, Hydrogenated Starch Hydrolysate, Carbomer, Xanthan Gum, Potassium Hydroxide, Glycyrrhiza Glabra (Licorice) Root Extract, Glucosyl Hesperidin, Sodium Metabisulfite, Hyaluronic Acid.

VIVID WHITE SHEET MASK

Indulge in a luxurious spa-like facial experience as you infuse ultra-brightening ingredients into your skin with this intensive-formula sheet mask.

Item #310

Ingredients: Water/Eau, Niacinamide, Butylene Glycol, Glycerin, Butyrospermum Parkii (Shea) Butter, Simmondsia Chinensis (Jojoba) Seed Oil, Palmaria Palmata Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Dipropylene Glycol, Hydroxyacetophenone, Caprylyl Glycol, Dipotassium Glycyrrhizate, Carbomer, Xanthan Gum, Polyglyceryl-3-Methylglucose Distearate, Betaine, Cyclopentasiloxane, Cyclohexasiloxane, Maltodextrin, Tocopheryl Acetate, Sodium Hydroxide, Sodium Polyacrylate, 1,2-Hexanediol, Disodium EDTA.

Hydrate

LUMINOUS MOISTURE CREAM

Restore your natural-looking glow with this smooth, illuminating moisturizer that helps address the look of your pigmentation concerns as it visibly brightens, hydrates, and softens.

Item #344

Ingredients: Water/Eau, Butylene Glycol, Glycerin, Squalane, Pentylene Glycol, Triethylhexanoin, Polyglyceryl-10 Stearate, Niacinamide, Glyceryl Stearate, Dimethicone, Sodium Polyacrylate, Phenethyl Alcohol, Saccharide Isomerate, Ascorbyl Glucoside, Carbomer, Potassium Hydroxide, Glucosyl Hesperidin, Citric Acid.

Sensé

Dedicated to those looking to enhance their health and beauty, USANA has created Sensé beautiful science, a comprehensive approach to bodycare. Each product is developed with groundbreaking, patented Self-Preserving Technology, meaning they stay fresh naturally. With regular use, skin is visibly transformed.

Made from the botanical extracts from natural sources and topical nutrition complexes, Sensé is formulated to revitalize individual cells—where healthy-looking skin begins. When cells are properly nourished and protected, you can expect beautiful results.

Sensé Bodycare

Energizing Shower Gel

Wash away impurities and revitalize your skin with this soap-free cleansing gel infused with botanical extracts. Energizing Shower Gel moisturizes skin with jojoba-seed and avocado oil. All while invigorating your skin with a fresh, tangerine fragrance.

ITEM #311

Ingredients: Water (Aqua), Sodium Myreth Sulfate, Disodium Laureth Sulfosuccinate, Cocamidopropyl Betaine, Sodium Lauroyl Sarcosinate, Sodium Cocoyl Isethionate, Cocamide MEA, Polysorbate 20, Glycerol Laurate, Undecylenol Glycine, Capryloyl Glycine, Glycerin, Pentylene Glycol, Polyquaternium-10, Disodium EDTA, Arginine HCl, Hydrolyzed Milk Protein, Betaine, Sodium PCA, Diisopropyl Dimer Dilinoleate, Magnesium Ascorbyl Phosphate, Tocopheryl Acetate, Camellia Sinensis Leaf Extract, Centella Asiatica Extract, Chondrus Crispus (Carrageenan) Extract, Echinacea Angustifolia Extract, Sambucus Nigra Flower Extract, Vitis Vinifera (Grape) Fruit Extract, Malva Sylvestris (Mallow) Extract, Proline, Sea Salt, Sorbitol, Tetrahexyldecyl Ascorbate, Calcium PCA, Magnesium PCA, Manganese PCA, Glycine, Serine, Alanine, Arginine, Lysine, Glutamic Acid, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Sodium Ascorbate, Threonine, Tocopherol, Oryzanol, Fragrance (Parfum).

Revitalizing Shampoo

Cleanse your hair with this gentle shampoo that delivers vital nutrients to help restore natural softness, body, and shine. Wheat protein, panthenol, and vitamin E in Revitalizing Shampoo promote a healthy scalp, while aloe provides penetrating moisture. Safe for all hair types, including chemically processed and color-treated hair.

ITEM #312

Ingredients: Water (Aqua), Sodium Myreth Sulfate, Disodium Laureth Sulfosuccinate, Cocamidopropyl Betaine, Sodium Cocoyl Isethionate, Sodium Lauroyl Sarcosinate, Cocamide MEA, Isoceteth-20, Glycerol Laurate, Undecylenol Glycine, Capryloyl Glycine, Polyquaternium-10, Cocodimonium Hydroxypropyl Hydrolyzed Wheat Protein, Hydrolyzed Silk, Wheat Amino Acids, Glycerin, Pentylene Glycol, Disodium EDTA, Aloe Barbadensis Leaf Juice, Panthenol, Aloe Barbadensis Leaf Extract, Camellia Oleifera Leaf Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Salvia Officinalis (Sage) Leaf Extract, Acetamide MEA, Sea Salt, Symphytum Officinale Leaf Extract, Tetrahexyldecyl Ascorbate, Vitis Vinifera (Grape) Fruit Extract, Tocopheryl Acetate, Diisopropyl Dimer Dilinoleate, Calcium PCA, Allantoin, Magnesium Ascorbyl Phosphate, Magnesium PCA, Manganese PCA, Phenylbenzimidazole Sulfonic Acid, Sodium Ascorbate, Tocopherol, Oryzanol, Fragrance (Parfum).

Nourishing Conditioner

Moisturize, protect, and strengthen hair with this exclusive conditioning formula enriched with vitamins C and E, hydrolyzed silk, and panthenol for extra manageability and shine. Wheat protein helps to mend split ends as Nourishing Conditioner restores moisture with aloe and soothes environmental effects with whole-grape and green-tea extracts. Safe for all hair types, including chemically processed and color-treated hair.

ITEM #313

Ingredients: Water (Aqua), Cetearyl Alcohol, Cetrimonium Chloride, Cetearyl Ethylhexanoate, Myristyl Alcohol, Polyisobutene, Behentrimonium Chloride, Glycerol Laurate, Betaine, Sorbitol, Glycine, Alanine, Proline, Serine, Threonine, Arginine, Lysine, Arginine HCl, Glutamic Acid, Allantoin, Panthenol, Phytantriol, Aloe Barbadensis Leaf Juice, Hydrolyzed Silk, Benzophenone-3, Cocodimonium Hydroxypropyl Hydrolyzed Wheat Protein, Aloe Barbadensis Leaf Extract, Camellia Oleifera Leaf Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Salvia Officinalis (Sage) Leaf Extract, Symphytum Officinale Leaf Extract, Vitis Vinifera (Grape) Fruit Extract, Magnesium Ascorbyl Phosphate, Sodium Ascorbate, Tocopherol, Tocopheryl Acetate, Oryzanol, Diisopropyl Dimer Dilinoleate, Tetrahexyldecyl Ascorbate, Sea Salt, Ascorbyl Palmitate, Glycerin, Disodium EDTA, Calcium PCA, Magnesium PCA, Manganese PCA, Sodium PCA, Pentylene Glycol, Sodium Hydroxide, Capryloyl Glycine, Undecylenol Glycine, Fragrance (Parfum).

Firming Body Nourisher

Sweep away dry skin with this firming moisturizer formulated with an exclusive Hydroxy Complex. Firming Body Nourisher deeply hydrates as soy protein delivers vital nutrients. Whole-grape and green-tea extracts help counteract the effects of environmental exposure while shea butter and Ceramide 3 soothe, firm, and replenish essential moisture.

ITEM #314

Ingredients: Water (Aqua), C12-15 Alkyl Benzoate, Glyceryl Stearate, Stearic Acid, Cetyl Alcohol, Glycolic Acid, Glycerin, Butylene Glycol, Dimethicone, Caprylic/Capric Triglyceride, Glyceryl Laurate, Polyacrylate-13, Undecylenoyl Glycine, Magnesium Aluminum Silicate, Polyisobutene, Capryloyl Glycine, Xanthan Gum, Polysorbate 80, Sorbitan Stearate, Pentyleneglycol, Butyrospermum Parkii (Shea Butter), Disodium EDTA, Polysorbate 20, Glycine, Proline, Salicylic Acid, Sea Salt, Camellia Sinensis Leaf Extract, Centella Asiatica Leaf Extract, Chondrus Crispus (Carrageenan) Extract, Echinacea Angustifolia Extract, Sambucus Nigra Flower Extract, Vitis Vinifera (Grape) Fruit Extract, Malva Sylvestris (Mallow) Extract, Calcium PCA, Bisabolol, Ceramide 3, Magnesium Ascorbyl Phosphate, Magnesium PCA, Manganese PCA, PPG-12/SMDI Copolymer, Retinyl Palmitate, Squalane, Tetrahexyldecyl Ascorbate, Diisopropyl Dimer Dilinoleate, Tocopheryl Acetate, Glycine Soja (Soybean) Protein, Hyaluronic Acid, Tocopherol, Oryzanol, Fragrance (Parfum).

Intensive Hand Therapy

Fight the damaging effects of the environment and keep hands and cuticles soft with this concentrated hand cream. Intensive Hand Therapy contains cocoa and shea butters, apricot kernel oil, aloe, and beeswax to lock in moisture. Mulberry and bearberry leaf refine, while green-tea and whole-grape extracts protect from oxidative stress.

ITEM #315

Ingredients: Water (Aqua), Glycerin, Glyceryl Stearate, Cyclopentasiloxane, Theobroma Cacao (Cocoa) Seed Butter, Triisnnonanoin, Limnanthes Alba (Meadowfoam) Seed Oil, Betaine, Stearic Acid, Behenyl Alcohol, Stearyl Alcohol, Prunus Armeniaca (Apricot) Kernel Oil, Glyceryl Laurate, Dimethicone, Beeswax, Isopropyl Myristate, Hydrogenated Polyisobutene, Undecylenoyl Glycine, Butyrospermum Parkii (Shea Butter) Extract, Vitis Vinifera (Grape) Seed Oil, Cetearyl Alcohol, Ceteareth-20, Capryloyl Glycine, Sodium Hydroxide, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Butylene Glycol, Pentyleneglycol, Disodium EDTA, Tocopheryl Acetate, Proline, Glycine, Tetrahexyldecyl Ascorbate, Stearyl Glycyrhetinate, Magnesium Ascorbyl Phosphate, Diisopropyl Dimer Dilinoleate, Morus Nigra Root Extract, Sodium PCA, Vitis Vinifera (Grape) Fruit Extract, Sambucus Nigra Flower Extract, Echinacea Angustifolia Extract, Chondrus Crispus (Carrageenan) Extract, Centella Asiatica Leaf Extract, Camellia Sinensis Leaf Extract, Malva Sylvestris (Mallow) Extract, Sea Salt, Sorbitol, Glycine Soja (Soybean) Protein, Manganese PCA, Magnesium PCA, Calcium PCA, Serine, Tocopherol, Threonine, Arctostaphylos Uva Ursi Leaf Extract, Retinyl Palmitate, Lysine, Glutamic Acid, Aloe Barbadensis Leaf Juice, Alanine, Arginine, Oryzanol, Fragrance (Parfum).

USANA Oral Care

A comprehensive two-step oral care system for good oral hygiene and a healthier-looking smile.

THE BENEFITS OF USANA ORAL CARE

USANA Whitening Toothpaste helps fight bad breath and deliver a clean, healthy-looking smile. Brush daily to improve oral health, cleanse teeth, and prepare your mouth for USANA Oral Probiotic. Take Oral Probiotic at night to replenish your microflora and give yourself fresher breath for longer.

USANA Whitening Toothpaste Featuring ADP-1

- ADP-1 postbiotic removes impurities for a deeper clean
- Scientifically proven to whiten and polish teeth

- Vitamin E oil
- Not tested on animals

USANA Oral Probiotic

- One billion probiotic strains to preserve healthy teeth and gums*
- Replenishes the microflora in your mouth*
- Works while you sleep
- Lactose, sugar, and gluten free
- Not tested on animals

THE SCIENCE OF USANA ORAL CARE

White teeth and healthy-looking gums are an important part of your life. And adding USANA® Whitening Toothpaste Featuring ADP-1 and USANA® Oral Probiotic to your daily regimen will build the foundation for a healthier-looking smile.

Taken together, USANA Whitening Toothpaste Featuring ADP-1 and USANA Oral Probiotic work to replenish your microflora while brightening your smile and freshening your breath.

Fresh breath is your first step to getting close. And a bright smile gives you the power to spread joy, comfort, and encouragement without saying a word. USANA's newest oral care products work together to give you a fresh, clean mouth and a whiter, brighter smile. Naturally derived and tested by scientists to provide the highest quality product for a confident smile that removes any barriers between you and the world.

THE USANA DIFFERENCE

You've taken care of your teeth for years. But rethinking what products you use to get a beautiful smile is important. When you combine USANA Whitening Toothpaste Featuring ADP-1 and USANA Oral Probiotic, your day can begin and end even better. Trust your bright, healthy-looking smile to USANA.
